weekly

When something is done weekly, it is done each week. Sue shops weekly for groceries.

wiggly

When something or someone is wiggly, it twists and moves all over.

yearly

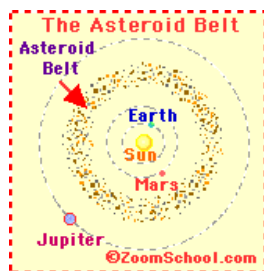

When something is done yearly, it is done each year. People celebrate their birthday yearly.

Astronomy-Related Words

asteroid

Asteroids are tiny planets that mostly orbit between Mars and Jupiter.

asteroid belt

The asteroid belt is a doughnut-shaped concentration of asteroids that orbit the Sun between the orbits of Mars and Jupiter.

astronaut

An astronaut goes up into space to explore.

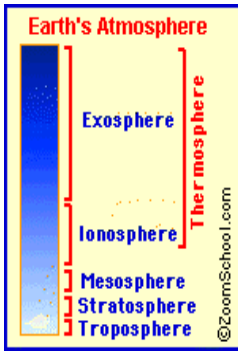

astronomer

Astronomers are people who study astronomy and learn about objects in the universe, like stars and planets.

astronomy

Astronomy is the science that studies the universe.

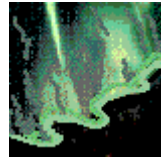

atmosphere

The atmosphere is the gas that surrounds a planet.

atom

Everything is made up of tiny atoms.

aurora

Auroras are beautiful lights in the near-polar sky.

Big Dipper

The Big Dipper is a group of 7 stars contained in the Northern Hemisphere constellation Ursa major (the Great Bear).

1,000,000,000

billion

A billion is a thousand million. The Earth is billions of years old.

constellation

A constellation is a group of stars that we see in the sky. They are not necessarily located together in space, but looks as though they are from Earth.

comet

A comet is the a small, icy object that orbit the Sun. It's tail always points away from the sun.

crescent moon

A crescent moon is smaller than a half moon.

Earth

The Earth is the third planet from the sun. It's where we live!

eclipse

An eclipse happens when the moon blocks out light from the sun or the Earth's shadow goes across the moon.

falling star

A falling star is not a star; it is a meteor (made of rock and/or iron) which is burning up in the Earth's atmosphere.

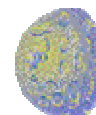

full moon

A full moon appears as an entire circle in the sky.

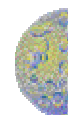

galaxy

A galaxy is an enormous group of stars.

gibbous moon

A gibbous moon is between a half moon and a full moon.

half moon

A half moon looks like half a circle.

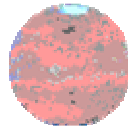

Jupiter

Jupiter is the largest planet in our solar system and the fifth planet from the sun.

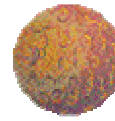

Little Dipper

The Little Dipper is a group of stars in the constellation Ursa minor (the Little Bear). This group of stars ends at Polaris, the pole star of the Northern Hemisphere.

Mars

Mars is a reddish planet and the fourth planet from the sun. It is the planet that comes closest to the Earth.

Mercury

Mercury is a moonless planet; it is the planet closest to the Sun.

meteor

A meteor is a meteoroid that has entered the Earth's atmosphere, usually making a fiery trail as it falls. It is sometimes called a shooting star. Most burn up before hitting the Earth.

meteorite

A meteorite is a meteor that has fallen to Earth. Meteorites are made of stone, iron, or stony-iron.

meteoroid

Meteoroids are tiny stones or pieces of metal that travel through space.

meteor shower

A meteor shower is when a lot of meteor fall through the atmosphere in a short time.

Milky Way

The Milky Way is a bright line of stars stretching across the night sky.

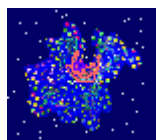

Milky Way Galaxy

Our solar system is in the Milky Way galaxy. We can see the Milky Way as a band of stars in the night sky.

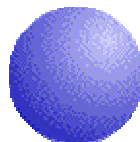

moon

The Earth has one moon. The moon has no atmosphere. The same side of the moon always faces the Earth.

nebula

A nebula is a cloud of gas and dust in space.

Neptune

Neptune is the eighth planet from the Sun. This frozen planet has 8 moons.

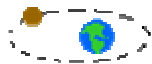

North Star

The north star is a star that is located almost due north and is useful for navigation. Polaris is currently the pole star of the Northern Hemisphere.

observatory

An observatory is a place where people observe the skies, using a device like a telescope.

orbit

The Moon orbits the Earth. The Earth orbits the Sun.

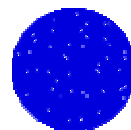

phases of the Moon

As the moon circles the Earth, the shape of the Moon appears to change. The phases of the Moon are: the new moon, waxing crescent, first quarter, waxing gibbous, full moon, waning gibbous, last quarter, and waning crescent.

planet

Nine planets orbit our Sun.

planetarium

Planetariums put on star shows that teach astronomy.

Pluto

Pluto is the ninth and usually the farthest planet from the Sun. Pluto is the smallest planet in our Solar System.

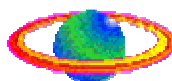

quasar

A quasar is a distant energy source in space which gives off large amounts of radiation.

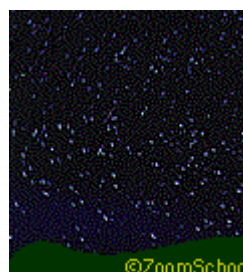

satellite

Satellites orbit the Earth.

Saturn

Saturn is the sixth planet from the Sun. It has beautiful rings.

shooting star

A shooting star is not a star; it is a meteor (made of rock and/or iron) which is burning up in the Earth's atmosphere.

Solar System

In our Solar System, nine planets, many asteroids, comets, and other objects orbit around our sun.

space shuttle

The space shuttle flies into space and back down again, carrying people and equipment.

spacesuit

Astronauts wear spacesuits when they walk in space.

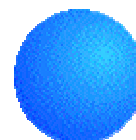

stars

Each of the stars we see in the night sky is another sun, but much farther away than our sun.

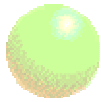

Sun

The Sun is a medium-sized yellow star in our Solar System. We get our light and most of our energy from the Sun.

Uranus

Uranus is the seventh planet from the Sun. Uranus looks bluish and is covered with clouds. It has an unusual, tipped axis, which gives it extreme seasons.

Venus

Venus is the second planet from the Sun and the hottest planet in our Solar System. From the

Earth, Venus is the brightest object in the sky except for the Sun and the Moon.

zodiac

The zodiac is a band of 12 constellations (groups of stars) in the sky, including Capricorn, Aquarius, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, and Pisces.

At the Firehouse: Words

ambulance

An ambulance takes sick people to the hospital.

ax

An ax is useful for chopping wood.

boots

Boots are a type of shoe. Boots cover the feet and part of the lower legs.

Dalmatian

The Dalmatian is a white dog that has dark spots.

danger

You can get hurt in a dangerous situation.

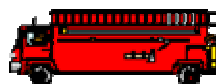

fire

Fire is very hot.

firefighter

A firefighter is a person who puts out fires and saves people's lives.

fire truck

Fire fighters on a fire truck help put out fires.

flame

A flame is a fire.

flashlight

A flashlight helps you find your way in the dark.

hatchet

A hatchet is an ax with a short handle.

helmet

A helmet protects your head. Firefighters wear helmets.

hero

A hero is someone who is admired for great courage, noble character, and performing good deeds, like a firefighter.

hose

Water flows through a hose.

hydrant

Fire fighters hook a hose up to a fire hydrant to get water.

ladder

You can climb up a ladder to reach tall things.

rope

A rope is useful for tying things together.

water

Water is a liquid that can put out some types of fires.

wrench

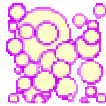

A wrench is a tool that turns nuts or bolts, like those on a fire hydrant.

Bathroom-Related Words

bathtub

You take a bath in a bathtub.

bubbles

It is fun to blow soap bubbles!

comb

A comb is used to smooth or untangle hair.

eyedropper

An eyedropper is used to drop liquids one drop at a time.

faucet

You can turn water flow on or off at a faucet.

hairbrush

A hairbrush is used to brush and untangle hair.

mirror

You can see your reflection in a mirror.

shampoo

A shampoo is a liquid soap used to wash hair. When you shampoo your hair, you wash it.

shower

When you shower, you wash your body in a stream of falling water.

sink

We can wash our hands at a sink.

soap

Soap and water help clean things.

toilet

Toilets are in bathrooms.

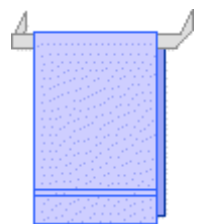

toothbrush

You can keep your teeth healthy by using a toothbrush to clean them.

toothpaste

You use toothpaste to clean your teeth.

towel

You can dry things with a towel.

tub

A tub is a large container. Tub is also another word for bathtub.

At the Beach: Beach-Related Words

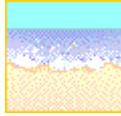

ball

A ball is round and fun to bounce, throw, kick, or catch.

bathing suit

A bathing suit is a garment you wear while swimming.

beach

A beach is where the water meets the land. You can build sand castles on the beach.

©ZoomSchool.com

clam

Clams are animals with two shells. They burrow under the sand.

©ZoomSchool.com

coral reef

Coral reefs are warm, clear, shallow ocean habitats that are rich in life.

crab

A crab has a hard shell and eyes on stalks on its head.

©EnchantedLearning.com

fiddler crab

The fiddler crab is small crab that lives on beaches. The male fiddler crab has one enlarged claw.

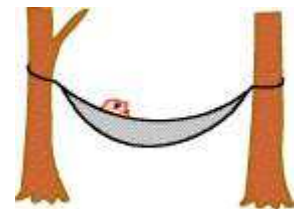

fish

Fish live in the water and breathe with gills.

fishing rod

People use fishing rods to catch fish.

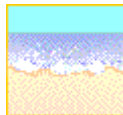

hammock

A hammock is a large net or cloth that is used for sleeping or relaxing; it is hung up by both ends.

ice cream cone

An ice cream cone is nice to eat on a hot summer day.

intertidal zone

The intertidal zone is where the sea meets the land, the area between high tide and low tide.

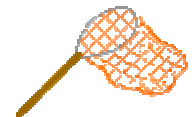

kelp

Kelp is brown seaweed that grows in cold water.

kite

You can fly a kite on windy days.

net

A net is used to catch things.

popsicle

A popsicles is a sweet, frozen treat on a stick.

reef

Reefs are warm, clear, shallow ocean habitats that are rich in life.

sand

Sand is a loose material composed of fine debris of rock and mineral particles.

sandals

S andals are open shoes worn in warm weather.

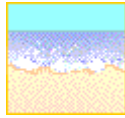

sandcastle

A sandcastle is a small castle made of damp sand.

sand dollar

Sand Dollars are coin-shaped spiny-skinned sea bed animals that have 5-part radial symmetry.

sea

A sea is a large body of salt water that is connected to an ocean. A sea may be partly or completely surrounded by land.

sea gull

Sea gull is the common name for some birds that live near oceans and lakes.

seaweed

Seaweed is a plant that lives in the sea.

shell

Some animals grow a shell for protection.

starfish

Starfish (also known as sea stars) are animals that live on the ocean floor.

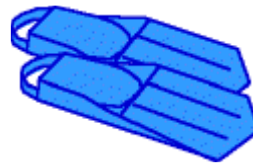

Sun

The Sun is a medium-sized yellow star in our Solar System. We get our light and most of our energy from the Sun.

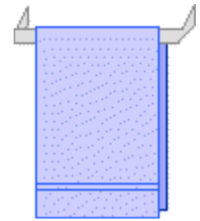

swim

When you swim, you move around in the water.

swim fins

People wear swim fins on their feet to help them swim.

towel

You can dry things with a towel.

trash can

A trash can holds garbage.

wave

There are waves of water in the ocean.

whelk

Whelks are ocean animals with a hard, spiral shell.

Bird-Related Words

albatross

The albatross is a web-footed bird that can fly for a long period of time.

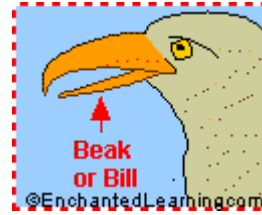

Arctic tern

The Arctic tern is a small bird that flies from the Arctic to the Antarctic and back again each year.

bald eagle

The bald eagle is a large bird of prey. It is the symbol of the USA.

beak

A beak is the hard, outer part of some animal's mouth. Birds, octopi, squid, and other animals have beaks. Some dinosaurs had them too.

biped

A biped is an animal that walks on two legs. People and birds are bipeds. Tyrannosaurus rex was a biped.

bird

Birds have feathers and wings. Most birds can fly.

blackbird

Blackbirds are black!

@EnchantedLearning.com

bluebird

The bluebird is a beautiful song bird that is the symbol of many of the states in the USA.

blue jay

The blue jay is a beautiful, noisy blue bird.

@EnchantedLearning.com

bones

Bones are hard, structural parts of the body of many animals, including birds.

cage

Some people keep birds in cages.

Canada goose

The Canada goose is a large North American bird that honks.

canary

Canaries sing very well.

@ZoomSchool.com

cardinal

The Northern Cardinal is a bird with a short, wide bill. The male is bright red; the female is brownish-red.

carnivore

Carnivores are organisms that eat meat. Many birds, like eagles, are carnivores.

cassowary

A huge, flightless bird from Australia with a helmet-like crest on its head.

chick

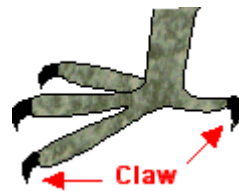

A chick is a baby chicken. Some other baby birds are also called chicks.

@ZoomSchool.com

chicken

A chicken is a farm animal.

claw

A claw is a hard, sharp, curved nail on the feet of some animals. Bears, cats, birds, dinosaurs, and many other animals have claws.

@ZoomSchool.com

cockatoo

Cockatoos are birds that have a large, feathery crest and a hooked bill. They are from Australia and Indonesia.

crane

quetzal

The quetzal is a beautiful rain forest bird with very long tail feathers.

©ZoomSchool.com

rainbow lorikeet

A small, colorful, brush-tongued parrot from Australia.

©ZoomSchool.com

rhea

The rhea is a large, flightless bird from South America.

©ZoomSchool.com

roadrunner

The roadrunner is a fast running bird that rarely flies.

robin

The robin is a common bird with red-colored feathers on its breast.

rockhopper penguin

The rockhopper penguin is a small, aggressive, crested bird that cannot fly.

sea gull

The sea gull is the common name for some birds that live near oceans and lakes.

snow goose

The snow goose is a migratory bird from North America.

snowy owl

The snowy owl is a white owl that lives in the North American tundra (a cold, snowy environment).

sparrow

The sparrow is a small, common songbird.

spotted owl

The spotted owl is an owl from the Pacific coast of North America.

swan

Swans are long-necked water birds.

tern

Terns are birds that are sometimes called "sea swallows."

toucan

The toucan is a rainforest bird that has a big, colorful beak.

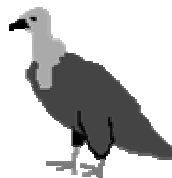

turkey

Turkeys are large birds that nest on the ground.

umbrellabird

The Umbrellabird is a rain forest bird with a large tuft of feathers on its head.

vulture

The vulture is a big, bald-headed bird that eats dead animals.

woodpecker

The woodpecker is a bird that can peck holes in trees.

xenops

Xenops is a rainforest bird from the Americas.

Birthday-Related Words

balloons

Balloons are rubber sacks that are filled with air or other gases.

birthday

You have a birthday every year.

birthday cake

Birthday cakes are sweet and delicious!

cake

Cake is a sweet dessert.

candle

A candle is a stick of wax with a wick that can burn.

candy

Candy is very sweet.

children

Children are young people.

chocolate

Chocolate is a tasty treat made from cocoa beans and sugar.

clown

Clowns are people who dress up in funny clothes and try to make you laugh.

cupcake

A cupcake is a tiny cake.

gift

It's nice to give gifts. It's nice to get them too.

ice cream

Ice cream is cold, creamy, and sweet treat.

juice

Juice is pressed from fruit or vegetables.

lollipop

A lollipop is candy on a stick.

paper plate

A paper plate is a disposable plate that is made out of paper. People use paper plates at picnics and some parties.

pizza

Pizza is made of dough that is covered with tomato sauce and cheese; it is baked in an oven.

popsicle

A popsicles is a sweet, frozen treat on a stick.

present

A present is a gift, something you give to someone.

ribbon

You can tie a bow in a ribbon to decorate something.

toys

We play with toys.

Body-Related Words

anatomy

Anatomy is a science that studies the body.

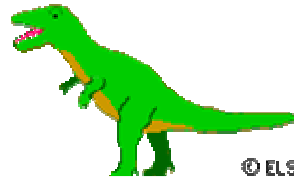

ankle

The ankle is the joint between your foot and leg.

bandage

A bandage is a clean pad that is used to cover and protect cuts and other injuries.

biped

A biped is an animal that walks on two legs. People are bipeds. Tyrannosaurus rex was a biped.

body

Everyone has a body.

bones

Bones are hard, structural parts of the body of many animals. We have 206 bones in our skeleton.

brain

We think with our brain. The brain is protected by the skull.

cheek

The cheeks are the sides of the face between the mouth area and the ear.

chin

The chin is the part of the face below the mouth.

ear

We hear things with our ears. Our ears give us a sense of hearing.

elbow

The elbow is the joint in the middle of your arm.

eye

We see with our eyes. Our eyes give us a sense of sight.

eyebrow

The eyebrows are dense patches of hair above the eyes.

eyelash

Eyelashes are long hairs on the edges of the eyelids.

eyelid

Eyelids are flaps of skin that cover and protect our eyes.

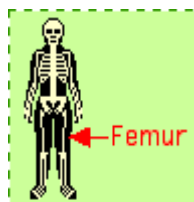

face

This is a funny face!

feet

We have ten toes on our feet.

femur

The femur is the upper leg (thigh) bone. It is the longest bone in the human body.

finger

We have five fingers on each hand.

fingernail

Fingernails grow at the ends of your fingers.

fingerprint

The pattern marks on our fingertips are fingerprints.

foot

We have five toes on each foot.

forehead

The forehead is the part of the face that is above the eyebrows and below the hair.

hair

Hair grows on all mammals.

hand

We can do amazing things with our hands.

head

We all have a head on our shoulders.

healthy

When you are healthy, you are not sick.

©EnchantedLearning.com

heart

Your heart pumps blood throughout your body.

heel

The heel is the back part of the foot.

hips

Your hips are below your waist and above your legs.

intestines

Intestines are a part of the digestive system.

The intestines help digest food, absorb it into the body, and excrete waste.

iris

The colored part of the eye around the pupil is the iris.

©EnchantedLearning.com

jaws

Jaws let you open and close your mouth and take bites.

kidney

The kidney are bean-shaped organs that take waste from the blood and produce urine.

knee

The knee is where the leg bends. It is between the lower leg and the upper leg (the thigh).

legs

Many animals have legs. People have two legs, cows have four legs, insects have six legs, and spiders have eight legs. Tables and chairs also have legs.

lips

Chickens don't have lips, but people do.

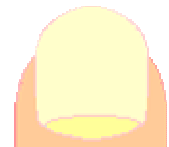

lungs

Some animals use lungs to breathe. People have lungs.

mouth

We use our mouths to eat and talk.

nail

Nails are hard scales that grow at the ends of your fingers.

naked

When you are naked, you aren't wearing any clothes.

neck

Your neck is between your head and your shoulders.

nose

We use the nose to breathe; it also gives us a sense of smell.

nurse

A nurse takes care of you when you're sick or hurt.

pupil

A pupil is the opening in the center of the eye's iris - the pupil looks like a black circle in the middle of the eye.

shoulder

Your shoulders are under your neck.

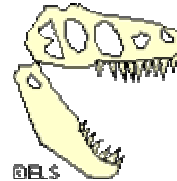

skeleton

A skeleton is the set of bones in a body. People have skeletons, and so do many other animals.

skin

The skin is the outer covering of our body.

skull

The skull is the bony structure of head that encloses the brain and supports the jaws. This is a T. rex skull.

tongue

Our tongue helps us eat, taste, and talk.

spine

The spine (also called the backbone) is a series of connected bones in the back that surround and protect the spinal cord.

stomach

The stomach is a pouch-like organ that is part of the digestive system. The stomach helps digest food by churning it in an acid bath.

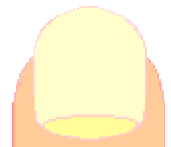

thumb

The thumb is the widest finger on a person's hand. The thumb is next to the pointing finger. All apes (like gorillas and chimps) have thumbs.

toe

We have five toes on each foot.

toenail

Toenails grow at the ends of your toes.

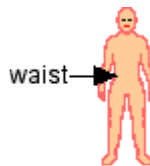

tooth

We use our teeth to chew food. Teeth are held in the gums by roots.

vertebra

A vertebra is one of the series of small, connected bones in the spine that surround and protect the spinal cord. The plural of vertebra is vertebrae.

waist

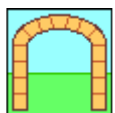

The waist is the middle of the body, between the chest and the hips.

x-ray

An x-ray is a picture of your bones or teeth.

Building-Related Words

arch

An arch is a curved opening.

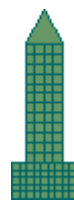

bank

You can put your money in a bank for safe keeping.

brick

This fireplace is made out of bricks.

building

A building is a structure built by people.

cabin

A cabin is a small, simple house.

castle

A castle is a huge, fancy building where a king or queen lives.

church

Some people worship in churches.

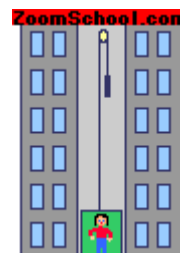

doghouse

Some dogs live in doghouses.

door

You can go in and out through a door.

elevator

An elevator carries people and things up and down a tall building.

entrance

You can go into an area through an entrance.

exit

You can leave an area through an exit.

factory

Many items, like cars, are made in factories.

gargoyle

Gargoyles are stone sculptures of grotesque creatures that sit perched atop some buildings; they act as waterspouts.

greenhouse

A greenhouse is a building, usually made out of glass, in which people grow plants.

home

Home is where you live.

house

Some people live in houses.

hut

A hut is a small, simple shelter.

igloo

An igloo is a house made out of blocks of ice. Brrr!

library

Libraries have books, tapes, and computer programs.

lighthouse

A lighthouse shines a very bright light so ships won't sail ashore or into rocks by mistake.

log cabin

A log cabin is a house made of logs.

market

We can buy things at a market.

museum

Museums exhibit art, historic objects, and scientific finds - like dinosaur fossils.

palace

A palace is a huge house where a king or queen lives.

pyramid

The pyramids in Egypt are huge buildings that have a square base and triangular sides.

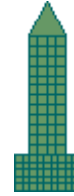

roof

The roof is the top covering of a building.

school

A school is a place where you learn things.

skyscraper

A skyscraper is a very tall building.

stadium

A stadium is a large building in which sports events are held.

store

A store is where we can buy things.

tent

A tent is a temporary shelter made of fabric.

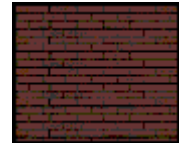

tepee

A tepee is a house made by some Native Americans.

urban

Urban means relating to or located in a city.

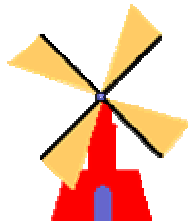

wall

A wall is a side of a building or a room or a fence.

White House

The White House is where the President of the United States lives and works. The address of the White House is 1600 Pennsylvania Avenue NW, Washington, D.C.

windmill

A windmill uses the wind to generate power.

Camping-Related Words

backpack

A backpack is a sack that is worn on the back and is used to carry things.

cabin

A cabin is a small, simple house.

camera

You can take pictures with a camera.

camper

You can travel and sleep in a camper.

camp fire

A camp fire is a fire made during a campout; it is used to cook food and to warm up people in cold weather.

camping

When people go camping, they go into an outdoor area and sleep in a tent, cabin or camper.

candle

A candle is a stick of wax with a wick that can burn.

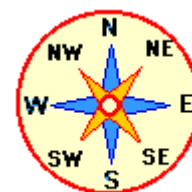

canoe

A canoe is a small boat.

compass

A compass always points north.

©EnchantedLearning.com

east

East is a compass direction. East is opposite west.

flashlight

A flashlight helps you find your way in the dark.

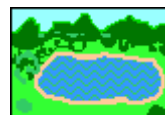

forest

A forest is a large group of trees and underbrush where many animals live.

kayak

A kayak is a small boat with an opening in the center for a person.

lake

A lake is a large body of water surrounded by land on all sides. Really huge lakes are often called seas.

lantern

A lantern is a device that gives off light.

log

A log is a short piece of a tree trunk.

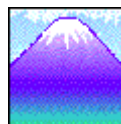

log cabin

A log cabin is a house made of logs.

map

A map shows the features of an area. You can find your way around by using a map.

mountain

A mountain is a very tall high, natural place on Earth - higher than a hill. The tallest mountain on Earth is Mt. Everest.

north

North is a compass direction. North is opposite south.

sleeping bag

A sleeping bag is a fabric sack you can sleep in.

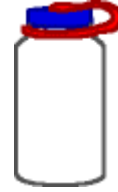

south

South is a compass direction. South is opposite from north.

tent

A tent is a temporary shelter made of fabric.

water bottle

A water bottle holds water.

west

West is a compass direction. West is opposite east.

City-Related Words

alley

An alley is a narrow road between buildings.

ambulance

An ambulance takes sick people to the hospital.

art gallery

You can see works of art at an art gallery.

automobile

An automobile is a car.

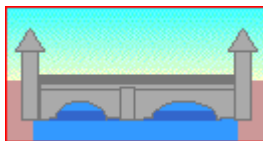

avenue

An avenue is a wide street.

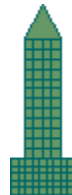

bank

You can put your money in a bank for safe keeping.

bridge

A bridge is a structure over water, or over another thing that is difficult to cross.

building

A building is a structure built by people.

bus

A bus is a large vehicle that can take many passengers to places.

cab

Cab is another word for taxi.

car

You can travel in a car.

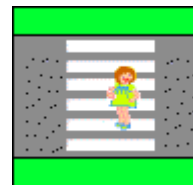

church

Some people worship in churches.

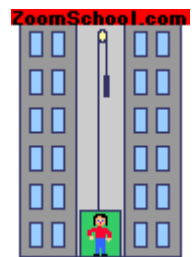

city

A city is a place where a lot of people live.

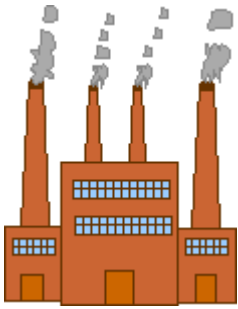

crosswalk

A crosswalk is a marked area on a street where it is safer to cross.

elevator

An elevator carries people and things up and down a tall building.

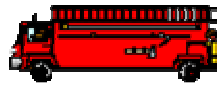

factory

Many items, like cars, are made in factories.

fire hydrant

Fire fighters hook a hose up to a fire hydrant to get water.

fire truck

Fire fighters on a fire truck help put out fires.

tube

Some pastes and gels (like toothpaste) come in tubes.

urn

An urn is a large vase.

vase

Vases are holders for flowers.

vat

A vat is a large tub that holds liquids.

water bottle

A water bottle holds water.

watering can

You can water plants with a watering can.

Devices

abacus

An abacus is a ancient device that is used for arithmetic calculations.

aileron

Ailerons are the outer flaps on the rear surface of the wings of an airplane. Ailerons are used to keep the airplane from rolling from side to side.

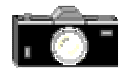

airplane

Airplanes fly in the sky.

bulb

A light bulb turns electricity into light.

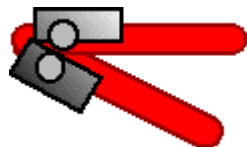

camera

You can take pictures with a camera.

can opener

A can opener is a device that opens cans.

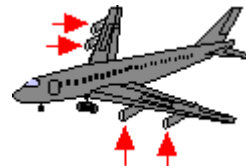

device

A device is a piece of equipment that does a job. For example, a can opener is a device that opens cans.

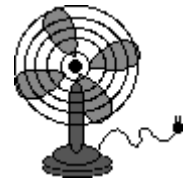

engine

The engine of a train pulls the railroad cars along the track.

engine

The engines of an airplane propel it through the air.

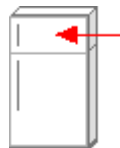

fan

A fan is a machine that makes a breeze.

flashlight

A flashlight helps you find your way in the dark.

freezer

A freezer keeps things icy.

funnel

A funnel is a device that lets you pour things from one container to another.

gyroscope

A gyroscope is a spinning wheel set in a movable frame. When the wheel spins, it is very hard to move the gyroscope - it essentially stays in its original orientation.

incandescent light bulb

An incandescent light bulb turns electricity into light as an electric current causes a filament to glow in an air-free enclosure.

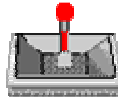

inventor

An inventor designs and creates new, useful things.

iron

Irons press the wrinkles out of clothes.

joystick

A joystick is used to play some computer games.

lock

You can lock and unlock a lock with a key.

magnifying glass

A magnifying glass is a lens that makes things look larger than they really are.

microscope

A microscope lets you see very tiny things.

microwave oven

Microwave ovens heat up food quickly.

mirror

You can see your reflection in a mirror.

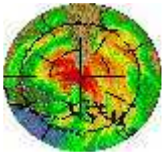

padlock

You can lock and unlock a padlock with a key.

pliers

Pliers are tools that hold things.

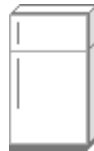

radar

Radar is a device that uses reflected radio waves to locate objects at a distance. Radar is short for "radio detection and ranging."

radio

A radio lets you hear broadcast music and talk shows.

refrigerator

A refrigerator is a machine that keeps food cold.

remote control

A remote control lets you operate a machine from far away.

rocket

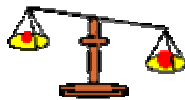

A rocket is a machine that propels itself into space.

©EnchantedLearning.com

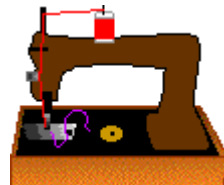

safety pin

A safety pin is a type of pin that is used to fasten clothes and diapers.

scale

A scale is a machine for weighing things.

sewing machine

A sewing machine sews stitches very quickly and easily. The sewing machine was invented in 1846 by Elias Howe.

sonar

In sonar (also called echolocation), a high-pitched sound (usually clicks) is sent out. The sound bounces off the object and some returns. The returning echo is interpreted to determine the object's shape, direction, distance, and texture. Dolphins (and other toothed whales) and some bats use sonar to navigate and find prey.

telephone

You can talk with people who are far away by using a telephone.

telescope

A telescope is a optical device that makes faraway objects appear closer and larger, allowing us to see distant objects in space.

television

A television is a machine that receives pictures and sounds. People watch and listen to shows on television.

thermometer

A thermometer is used for telling what the temperature is.

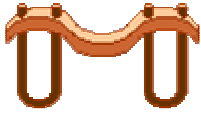

toaster

A toaster is a machine that heats up slices of bread, making toast.

mushroom

Mushrooms are fast-growing fungi. They grow in dark, damp places.

napkin

After you eat, you can clean your face with a napkin.

nectarine

A nectarine is a sweet, juicy fruit with smooth skin; it is related to the peach.

noodles

Noodles are flat strips of pasta. Noodles were invented in China.

nut

A nut is a dry seed or fruit with a hard shell.

oatmeal

Oatmeal is a cereal.

oil

Oil is a greasy liquid.

olive

An olive is an oily fruit that grows on an evergreen tree.

omelet

An omelet is a dish made from eggs.

©ZoomSchool.com

omnivore

An omnivore is an animal that eats plants and meat. People are omnivores.

onion

Onions are sharp tasting vegetables.

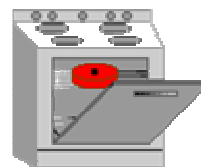

orange

Oranges are sweet, juicy fruit.

orange juice

Orange juice is made from oranges.

oven

Ovens get very hot. You can bake food in an oven.

oven mitt

An oven mitt protects your hand when you put things in or out of an oven.

©ZoomSchool.com

oyster

The oyster is a soft-bodied marine animal that is protected by two hard shells.

pan

You can cook food in a pan.

paper plate

A paper plate is a disposable plate that is made out of paper. People use paper plates at picnics.

pasta

Pasta is a type of food made from flour. Spaghetti and macaroni are types of pasta.

peach

Peaches are sweet, juicy fruit with fuzzy skin.

peanut

Peanuts grow underground; they are a type of legume.

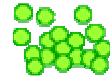

pear

The pear is a sweet fruit with a thin skin.

pea pod

Peas grow in pea pods.

peas

Peas are small, round vegetables.

pepper

Pepper is a spice that many people use to season their food.

pepper

A pepper is a sharp-tasting, hollow vegetable. Peppers can be red, green, yellow, and orange.

pickle

A pickle is a cucumber that is preserved in brine.

pie

A pie is a dessert that is made with fruit and has a crust.

pitcher

A pitcher is a container for pouring liquids.

pizza

Pizza is made of dough that is covered with tomato sauce and cheese; it is baked in an oven.

plate

A plate is a flat dish on which we put food.

plum

A plum is a sweet, juicy, purple fruit.

pod

Peas grow in pea pods.

popsicle

A popsicles is a sweet, frozen treat on a stick.

pot

People cook food in pots.

potato

Potatoes are starchy vegetables that grow underground.

pretzel

Pretzels are salty, knotted snacks.

prune

A prune is a dried plum.

pumpkin

The pumpkin is a large, orange vegetable that grows on a vine.

pumpkin pie

Pumpkin pie is a dessert made from pumpkins.

radish

A radish is a sharp-tasting vegetable that grows underground.

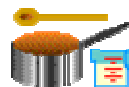

raisin

Raisins are dried grapes.

raspberry

Raspberries are a type of edible berry that grows on a prickly vine.

recipe

A recipe is a set of instructions for making a type of food.

refrigerator

A refrigerator is a machine that keeps food cold.

rice

Rice is a food. It is a grain that grows in warm, wet soil. Rice is an important food in much of Asia.

roll

A roll is a small piece of baked dough.

rolling pin

A rolling pin is used to roll out dough.

salad

A salad is a type of food that is usually made with lettuce and other vegetables.

salami

Salami is a type of salty, spicy meat product, usually made from beef and/or pork.

salt

Salt is an important crystalline mineral that we use to season our food.

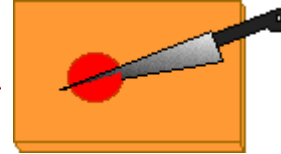

sandwich

A sandwich is cheese, peanut butter, meat, or another filling between two slices of bread.

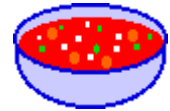

sausage

Sausage is a type of meat.

slice

When something is sliced, thin pieces are cut from it.

soup

Soup is a type of food. Vegetable soup and chicken soup are two kinds of soup.

spatula

A spatula is a tool that has a wide, flat end.

spoon

A spoon is used for eating food like soup and cereal.

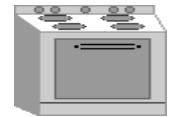

squash

Squash grows in warm weather.

steak

Steak is a slice of meat.

stove

You can cook food on a stove.

strawberry

The strawberry is a sweet, red fruit.

string bean

A string bean is a long, thin, green vegetable. It is a pod that contains bean seeds. It is also called a green bean.

sugar

Sugar is a sweet food.

sunflower

A sunflower is a plant that turns to face the sun.

tea

Tea is a drink that is brewed from tea leaves.

teapot

You can brew tea in a teapot.

toaster

A toaster is a machine that heats up slices of bread, making toast.

tomato

Tomatoes are soft and tangy; they grow on vines.

©ZoomSchool.com

tuna

The tuna is a very large, bony fish that lives in the ocean. People eat a lot of tuna.

©ZoomSchool.com

turkey

Turkeys are large birds that nest on the ground.

water

Water is a liquid that we drink and use to wash. Water covers over two thirds of the surface of the Earth, and much of our body is made of water.

utensils

Utensils are tools used in the kitchen, like knives, forks, and spoons.

vegetable

Vegetables are very good for you.

vinegar

Vinegar is a sour liquid that is used to flavor or preserve foods.

walnut

A walnut is an edible nut from the walnut tree.

water bottle

A water bottle holds water.

watermelon

Watermelon is a large, delicious, red fruit with a thick green rind.

wheat

Wheat is a grain. Flour is made from ground-up wheat.

whisk

A whisk is used to beat eggs or batter.

wok

A wok is a cooking pot used in Asia.

yam

Yams are sweet vegetables that grow underground.

yogurt

Yogurt is a dairy food made from milk.

yolk

The yolk of an egg is yellow and contains stored food for a bird or reptile before it hatches.

zucchini

Zucchini is a type of squash.

Furniture Words

armchair

An armchair is a chair with arms.

bed

People sleep in beds.

bench

A few people can sit on a bench.

bookcase

Books are stored in bookcases.

chair

A chair is a piece of furniture that people sit on.

couch

A couch is a big, soft piece of furniture that many people can sit on.

cradle

A cradle is a small bed for a baby.

cupboard

Things are stored in cupboards.

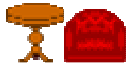

dresser

A dresser is a piece of furniture in which you can store things.

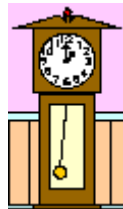

footstool

A footstool is a small piece of furniture.

furniture

Tables, chairs, sofas, and beds are furniture.

grandfather clock

A grandfather clock is a large, free-standing pendulum clock.

shelf

A shelf is a small platform on which things can be placed.

sofa

A sofa is a large, soft piece of furniture that many people can sit on.

stool

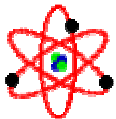

A stool is a seat with neither arms nor a back.

table

A table is a piece of furniture with a flat top and legs.

Geology-Related Words

atom

Everything is made up of tiny atoms.

crystal

Crystals are solids whose atoms form a very regular pattern.

diamond

A diamond is a very hard, shiny jewel.

emerald

An emerald is a hard, shiny, deep green jewel.

gem

Gems sparkle and shine.

geyser

A geyser is a natural hot spring that occasionally sprays water and steam above the ground.

geology

Geology is the study of the Earth's structure, including rocks and minerals.

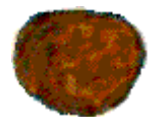

glacier

A glacier is a large, slowly-moving river of ice.

gold

Gold is a precious metal. Coins and jewelry are made from gold. The Sacajawea US dollar coin above looks like gold.

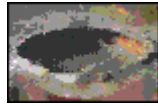

granite

Granite is a common type of igneous rock. Granite is formed in a slow cooling process.

igneous rock

When molten rock cools, igneous rock is formed.

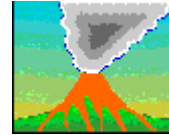

impact crater

Impact craters are the remains of collisions between an asteroid or meteorite and the Earth.

iron

Iron is a common metal that is used for many things, like train tracks, pots, and pipes.

lava

Lava is molten rock. It comes out of erupting volcanoes.

limestone

Limestone is a type of sedimentary rock that is made of the skeletons of tiny microorganisms.

magnet

A magnet attracts things made of iron.

marble

Marble is a beautiful metamorphic rock.

metal

A metal is an element that has a crystalline structure when it is solid form. Many metals are shiny and many conduct electricity. Some metals include iron, copper, silver, and gold.

metamorphic rock

Metamorphic rocks are compacted by pressure and heat from deep inside the earth.

mineral

A mineral is a naturally-occurring solid whose molecules form a regular pattern (usually forming crystals). Some common minerals include quartz, salt, diamond, and feldspar.

pebble

A pebble is a small, smooth stone.

quartz

Quartz is a common crystalline mineral.

rock

A rock is a stone. The Earth's crust is made of rock.

ruby

A ruby is a hard, shiny, red jewel.

salt

Salt is an important crystalline mineral that we use to season our food.

sand

Sand is a loose material composed of fine debris of rock and mineral particles.

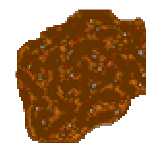

sedimentary rock

Sedimentary rock is rock that has formed from sediment and is where most fossils are found.

silver

Silver is a valuable metal; it is also the shiniest metal. Some coins and jewelry are made from silver.

soil

Plants grow in soil.

solid

A solid is a matter in which the molecules are very close together and cannot move around. Ice, quartz, and diamonds are solids.

stone

A stone is a rock.

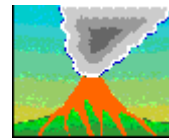

streak

A streak is a long mark or stripe of color.

tsunami

A tsunami is a rare, giant series of waves caused by an underwater earthquake or other large-scale, underwater disturbance.

volcano

A volcano is a mountainous vent in the Earth's crust. When a volcano erupts, it spews out lava, ashes, and hot gases from deep inside the Earth.

water

Water is a liquid that we drink and use to wash. Water covers over two thirds of the surface of the Earth, and much of our body is made of water.

well

A well is a deep hole in the ground from which you get water.

House-Related Words

armchair

An armchair is a chair with arms.

bathtub

You take a bath in a bathtub.

bed

People sleep in beds.

bench

A few people can sit on a bench.

bookcase

Books are stored in bookcases.

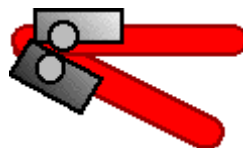

brick

This fireplace is made out of bricks.

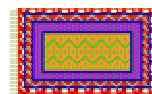

broom

You can sweep the floor with a broom.

can opener

A can opener is a device that opens cans.

carpet

A carpet is a floor covering made of woven yarn or thick fabric.

chair

A chair is a piece of furniture that people sit on.

chimney

A chimney is a structure in which you can build a fire.

china

China is well-made pottery that was first made in China.

clothespin

Clothespins are used to hang wet laundry on a clothes line to dry.

couch

A couch is a big, soft piece of furniture that many people can sit on.

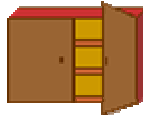

cradle

A cradle is a small bed for a baby.

cuckoo clock

A cuckoo clock has a mechanical bird that sings every hour.

cupboard

Things are stored in cupboards.

curtains

Curtains are cloth hung on and around a window.

door

You can go in and out through a door.

drapes

Drapes are cloth hung on and around a window.

dresser

A dresser is a piece of furniture in which you can store things.

fan

A fan is a machine that makes a breeze.

faucet

You can turn water flow on or off at a faucet.

fence

A fence is a type of barrier.

fireplace

You can make a fire in a fireplace to keep you warm.

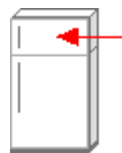

footstool

A footstool is a small piece of furniture.

frame

People put pictures and photos in frames to protect them and make them look nice.

freezer

A freezer keeps things icy.

furniture

Tables, chairs, sofas, and beds are furniture.

garbage can

Garbage cans hold garbage.

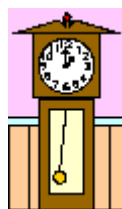

garden

Plants grow in a garden.

gate

A gate is a door in a fence.

grandfather clock

A grandfather clock is a large, free-standing pendulum clock.

home

Home is where you live.

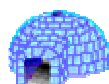

house

Some people live in houses.

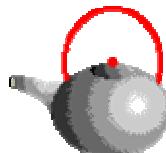

hut

A hut is a small, simple shelter.

igloo

An igloo is a house made out of blocks of ice. Brrr!

kettle

A kettle is a pot in which you boil water.

key

We use keys to lock and unlock doors.

kitchen

People prepare and store food in a kitchen.

lamp

A lamp gives out light.

lawn

A lawn is a place outside where grass grows.

lawn mower

You can cut the grass with a lawn mower.

living room

A living room is a large room in an apartment or house.

©ZoomSchool.com

log cabin

A log cabin is a house made of logs.

mat

You can wipe your shoes on a floor mat.

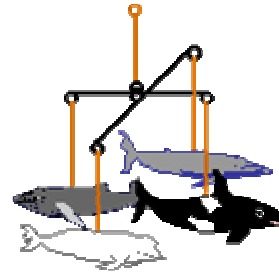

microwave oven

Microwave ovens heat up food quickly.

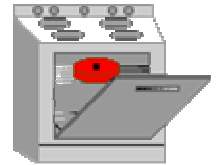

mirror

You can see your reflection in a mirror.

mobile

A mobile is a hanging sculpture.

oven

Ovens get very hot. You can bake food in an oven.

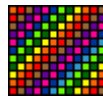

oven mitt

An oven mitt protects your hand when you put things in or out of an oven.

pillow

A pillow is a soft cushion that you can rest upon.

quilt

Quilts keep you warm at night.

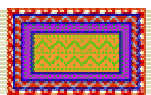

roof

The roof is the top covering of a building.

room

A room is a part of a building that is separated off by walls.

rug

A rug is a floor covering made of woven yarn or thick fabric.

shelf

A shelf is a small platform on which things can be placed.

shower

When you shower, you wash your body in a stream of falling water.

sink

We can wash our hands at a sink.

soap

Soap and water help clean things.

sofa

A sofa is a large, soft piece of furniture that many people can sit on.

sponge

Sponges are absorbent objects used to clean things.

stool

A stool is a seat with neither arms nor a back.

stove

You can cook food on a stove.

table

A table is a piece of furniture with a flat top and legs.

toaster

A toaster is a machine that heats up slices of bread, making toast.

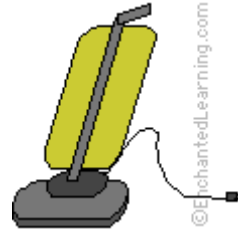

toilet

Toilets are in bathrooms.

trash can

A trash can holds garbage.

©EnchantedLearning.com

vacuum cleaner

A vacuum cleaner is a device used to clean rugs and floors.

wall

A wall is a side of a building or a room or a fence.

wastebasket

People throw trash in a wastebasket.

welcome mat

You can wipe your shoes on a welcome mat.

window

A window is a glass-covered opening in a wall or vehicle. You can see out a window.

yard

A yard is a small outside area.

In the Sea: Ocean-Related Words

African penguin

The African penguin is a small, flightless bird that lives on islands off the coast of southern Africa.

anchor

An anchor is a heavy metal device that holds a ship in place.

boat

Boats float in the water.

blue shark

The blue shark is a sleek, fast-swimming shark with blue skin.

blue whale

The blue whale is the biggest animal that ever lived. It eats tiny food that it sieves through baleen.

©ZoomSchool.com

conch

The conch is a large, shelled animal from warm seas.

©ZoomSharks.com

cookiecutter shark

The cookiecutter shark is a small shark that takes circular bites out of its prey. Also known as the luminous or cigar shark.

coral

Coral is a tiny ocean animal that lives in colonies. Some corals leave a hard, stony skeleton when they die.

©ZoomSchool.com

coral reef

Coral reefs are warm, clear, shallow ocean habitats that are rich in life.

crab

A crab has a hard shell and eyes on stalks on its head.

--	--	--	--	--

In the Sea: Ocean-Related Words

--	--	--	--	--

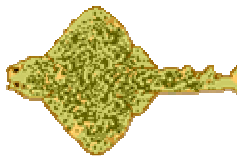

cuttlefish

The cuttlefish is a close relative of the octopus and the squid.

angelfish

Angelfish are brightly-colored fish that live in warm water.

angel shark

Angel sharks are sharks that have flat bodies and live on the ocean floor.

basking shark

The basking shark is huge and eats very tiny animals that float in the ocean.

beluga whale

The beluga is a small, white, toothed whale that lives mostly in cold, arctic waters.

coral reef

Coral reefs are warm, clear, shallow ocean habitats that are rich in life.

dogfish shark

The dogfish shark is a small, very common shark that is found all over the world. It is not dangerous to people.

dolphin

A dolphin is a marine mammal with a long nose and teeth. Dolphins are whales.

dugong

Dugongs are gentle, slow-swimming, aquatic mammals.

echolocation

In echolocation (also called sonar), a high-pitched sound (usually clicks) is sent out. The sound bounces off the object and some returns. The returning echo is interpreted to determine the object's shape, direction, distance, and texture. Dolphins (and other toothed whales) and some bats use sonar to navigate and find prey.

eel

The eel is a long, snake-like fish.

elephant seal

The elephant seal is a huge seal that lives in the Pacific Ocean.

emperor angelfish

The emperor angelfish is a brightly-colored, flattened fish that lives in shallow warm waters.

emperor penguin

The emperor penguin is the largest penguin; it lives on ice packs in Antarctica.

fiddler crab

The fiddler crab is small crab that lives on beaches. The male fiddler crab has one enlarged claw.

fin

Fish use their fins to swim.

fin whale

The fin whale is a very large baleen whale. It is the second largest animal in the world.

fish

Fish live in the water and breathe with gills.

flipper

Flippers are wide, flat limbs that many marine animals use for swimming. Seals and whales have flippers.

flukes

The tail of whales and dolphins is called the flukes (each half of the tail is called a fluke). Flukes have no bones in them. Whales swim by moving their flukes up and down in the water (fish move their tail left to right).

giant squid

Giant Squid swim deep in the oceans. They have ten arms and their eyes are the size of basketballs.

gills

Gills are organs that fish and amphibians use to breathe underwater.

goblin shark

The Goblin shark has a very long snout.

gray whale

The gray whale is a baleen whale that eats tiny organisms from the mud on the bottom on the ocean.

great white shark

The Great White shark is a large, meat-eating fish.

©ZoomSchool.com

gull

Gulls are birds that live near oceans and lakes.

hammerhead shark

The hammerhead shark has a head shaped like a hammer.

©ZoomSchool.com

harp seal

The harp seal is a marine mammal that lives in the North Atlantic and in the Arctic Ocean.

©ZoomSchool.com

hatchetfish

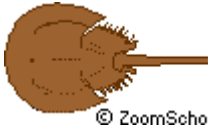

Hatchetfish are oddly-shaped fish from South and Central America.

©ZoomSchool.com

hermit crab

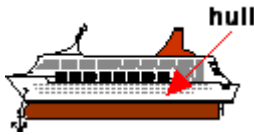

Hermit crabs are crabs that lack a hard shell; they use a discarded shell for protection.

© ZoomScho

horseshoe crab

The horseshoe crab is a hard-shelled animal that lives in warm coastal waters on the sea floor.

hull

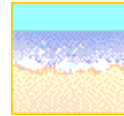

hull

The hull is the main body or frame of a ship.

humpback whale

Humpbacks are very acrobatic whales that sing beautiful, complex songs.

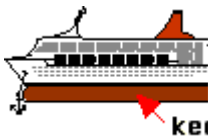

intertidal zone

The intertidal zone is where the sea meets the land, the area between high tide and low tide.

jellyfish

Jellyfish are animals that have stinging tentacles.

keel

keel

The keel is the bottom of a ship.

kelp

Kelp is brown seaweed that grows in cold water.

killer whale

Killer whales are also known as orcas. These whales eat hundreds of pounds of fish and marine mammals every day.

©ZoomSchool.com

krill

Krill are small marine animals that are eaten by many big animals, including some whales.

©ZoomSchool.com

lanternfish

Lanternfish are fish that have light-producing organs and very large eyes.

lemon shark

The lemon shark is a yellowish shark.

©ZoomSchool.com

limpet

The limpet is a marine animal with a soft body and a flattened, cone-shaped shell.

lobster

A lobster lives on the ocean floor and has five pairs of legs. Lobsters have blue blood.

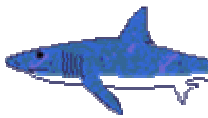

lobtailing

Lobtailing is when a whale sticks its tail out of the water into the air, swings the tail around, and then slaps the tail on the water's surface. Lobtailing makes a very loud noise.

macaroni penguin

The macaroni penguin is a penguin from the Antarctic that has a yellow, feathery crest on its head.

mako shark

The mako shark is a very fast shark with bluish skin.

manatee

Manatees are gentle, slow-swimming, aquatic mammals.

man-of-war

The Portuguese man-of-war is a floating colony of animals that has very long, stinging tentacles. It lives in warm ocean waters.

manta ray

Manta rays are harmless fish and are related to sharks. Mantas are the biggest rays.

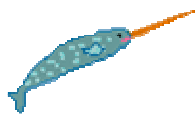

marine mammals

Marine mammals live in the sea and breathe air. Seals, sea lions, whales, and others are marine mammals.

moray eel

The moray eel is a long, snake-like fish that has circular gills.

narwhal

The narwhal is an Arctic whale; the male has a huge tooth.

nautilus

The nautilus is a sea animal related to the squid and octopus!

nurse shark

The nurse shark is a large predator that lives in warm water in coral reefs.

octopus

Octopi have eight arms and live on the sea floor.

orca

Orcas are also known as killer whales. An orca eats hundreds of pounds of fish and marine mammals every day.

otter

An otter is a playful aquatic mammal.

oyster

The oyster is a soft-bodied marine animal that is protected by two hard shells.

pelican

The pelican is fish-eating bird with a huge, pouched bill.

penguin

Penguins are birds that cannot fly but swim very well.

plankton

Plankton are tiny organisms that float in the seas and other bodies of water. Plankton is the base of the oceanic food web.

pod

A group of whales is called a pod.

polar bear

Polar bears are large meat-eaters live in the far north. They have clear-colored hair and black skin.

porpoise

A porpoise is a marine mammal with a long nose and teeth. They are also known as dolphins; they are a type of toothed whales.

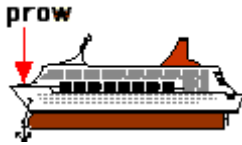

porthole

A porthole is a window in a ship.

propeller

A propeller is a device with blades that is turned by an engine; it makes boats (and some airplanes) move.

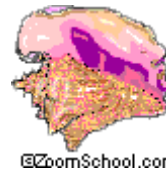

prow

The prow is front part of a ship.

pufferfish

Also called blowfish, this poisonous fish can swallow water to double its size.

queen conch

The queen conch is a large, shelled animal from warm seas. It is in danger of extinction.

ray

A ray is a flat fish that is related to the sharks. Many have a long tail that stings.

reef

Reefs are warm, clear, shallow ocean habitats that are rich in life.

right whale

Right whales are baleen whales with a huge head and an arched mouth. They were almost hunted to extinction.

rockhopper penguin

The rockhopper penguin is a small, aggressive, crested bird that cannot fly.

sail

A sail is a large piece of strong fabric that catches the wind and propels a boat or sailboard through the water.

sailboat

A sailboat is a boat that has sails and is powered by the wind.

sailfish

The sailfish is a deep-sea fish. It is the fastest fish in the sea and can swim up to 68 miles per hour (110 kph).

salmon

Salmon are fish that live in the sea and spawn in fresh water.

sand

Sand is a loose material composed of fine debris of rock and mineral particles.

sand dollar

Sand Dollars are coin-shaped spiny-skinned sea bed animals that have 5-part radial symmetry.

scales

Scales are thin, hard, overlapping plates on some animals. Fish are covered with scales. Butterfly wings are made of scales.

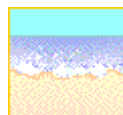

scallop

Scallops are animals that have two shells and live on the ocean floor.

scuba diver

Scuba divers swim under the water and carry their own air in a tank on their back.

sea

A sea is a large body of salt water that is connected to an ocean. A sea may be partly or completely surrounded by land.

sea anemone

A sea anemone is a predatory sea animal that looks like a flower and lives on the ocean floor.

sea cow

Sea cows (also called manatees) are gentle, slow-swimming, aquatic mammals.

©EnchantedLearning.com

sea cucumber

Sea cucumbers are cylinder-shaped animals that live on the sea floor.

©ZoomSchool.com

sea gull

The sea gull is the common name for some birds that live near oceans and lakes.

sea horse

The sea horse is a very strange type of fish - it has a long snout and a curled tail.

seal

Seals are animals that live in the ocean but breathe air. They are marine mammals.

©ZoomSchool.com

sea lion

Sea lions are eared seals that live off the coast of western North America.

©ZoomSchool.com

sea otter

Sea otters are marine mammals with very dense, waterproof fur.

©Zoom Dinosaurs

sea star

Sea stars, another name for starfish, are animals that live on the ocean floor.

sea urchin

The sea urchin is a spiny, globular animal that lives on the ocean floor.

seaweed

Seaweed is a plant that lives in the sea.

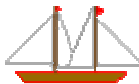

shark

Sharks are meat-eaters that have no bones, only cartilage (which is softer than bone) in their skeleton.

shell

Some animals grow a shell for protection.

ship

A ship is a very large boat.

shrimp

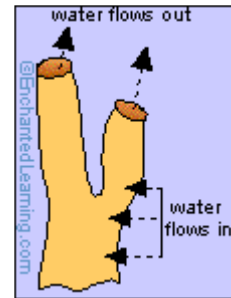

Shrimp are small animals that live in the water.

©ZoomSchool.com

snail

A snail is a small, slow animal with its own shell.

sponge

A sponge is a primitive animal that lives in the water.

spyhopping

Spyhopping is when a whale pokes its head up out of the water and turns around, perhaps to look around.

squid

Squids swim in the oceans. They have ten arms and an ink sac.

©Zoom Dinosaurs

starfish

Starfish (also known as sea stars) are animals that live on the ocean floor.

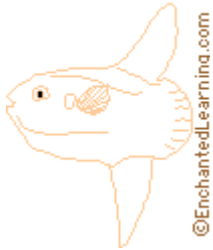

stingray

A stingray is a flat fish with cartilage instead of bones. Its sting is in its tail.

submarine

A submarine is a vessel that can travel underwater and carry people.

©EnchantedLearning.com

sunfish

The sunfish is a large fish with an almost circular, flattened body.

ZoomSchool.com

swim

When you swim, you move around in the water.

©ZoomSchool.com

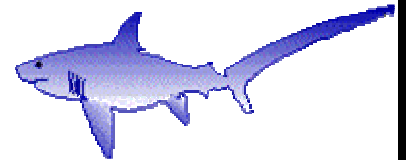

swordfish

The swordfish is a large fish with a long, sharp bill.

tern

Terns are birds that are sometimes called "sea swallows."

thresher shark

The thresher shark has a greatly-elongated top part of the tail.

tiger shark

Tiger sharks are large, fierce sharks that have faint stripes.

tugboat

A tugboat is a sturdy boat that guides large boats in and out of harbors.

©ZoomSchool.com

tuna

The tuna is a very large, bony fish that lives in the ocean. People eat a lot of tuna.

walrus

A walrus is a northern marine mammal with ivory tusks.

water

Water is a liquid that we drink and use to wash. Water covers over two thirds of the surface of the Earth, and much of our body is made of water.

wave

There are waves of water in the ocean.

©ZoomSchool.com

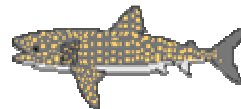

Weddell seal

The Weddell seal is a large, nocturnal marine mammal from Antarctica (near the South Pole).

whale

Whales are large marine mammals. Whales breathe air using lungs.

whale shark

The whale shark is the biggest shark and the biggest fish, but it eats tiny food that it sieves through its gills. It is not a whale; it is a shark.

©ZoomSchool.com

whelk

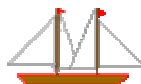

Whelks are ocean animals with a hard, spiral shell.

©ZoomSchool.

Xiphias

Xiphias is the group (genus) of swordfish, fast-swimming fish that have a long, sharp bill.

yacht

A yacht is a very nice small ship.

©ZoomSchool.com

zooplankton

Zooplankton are tiny animals that float in the seas and other bodies of water.

At the Post Office: Mail-Related Words

address

An address tells the Post Office where to bring a letter or package.

box

A box can hold things.

card

You can send a card to a friend.

envelope

An envelope holds a letter.

Dear Don,
Heard any
good jokes?
JC

letter

You can write a letter to communicate with a person.

mailbox

A mailbox is where you leave letters to be mailed.

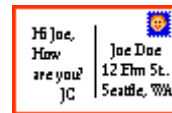

package

A package is a wrapped box that contains something.

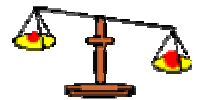

paper

We write and paint on paper. It is made from plant fibers, usually trees.

postcard

A postcard is a card you can mail without an envelope. People who collect post cards are called deltiologists.

scale

A scale is a machine for weighing things.

stamp

You must put a stamp on a letter for it to be delivered.

tape

Tape is a long, sticky ribbon that is used to stick things together.

Math-Related Words

abacus

An abacus is an ancient device that is used for arithmetic calculations.

acute angle

An acute angle is less than 90 degrees.

$$1+1=2$$

$$2+3=5$$

addition

Addition is the adding of numbers to get their sum.

angle

An angle is the amount of rotation it would take to put one intersecting line on top of another.

$$1+1=2$$

$$7-4=3$$

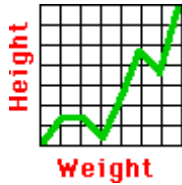

arithmetic

Arithmetic is the study of addition, subtraction, multiplication, and division.

1,000,000,000

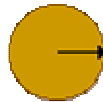

billion

A billion is a thousand million. The Earth is billions of years old.

chart

A chart is a diagram, like a graph or a table, that shows the relationships between things.

circle

All of the points on a circle are the same distance from the center.

cone

A cone is a shape that has a point at one end and a circular opening at the other end. In mathematics, this shape is a half cone.

couple

A couple refers to two people or two objects.

crescent

A crescent is the shape of the moon a little before or after the time of the new moon.

cube

A cube is a solid geometric figure with six square faces.

curve

A curve is a wavy line.

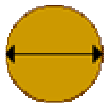

cylinder

A cylinder is a figure with a long round body.

$$\begin{array}{r} 3 \\ 4 \end{array} \leftarrow$$

denominator

The denominator is the bottom number in a fraction.

diameter

The diameter is the longest distance from one side of a circle (or a sphere) to the other.

diamond

A diamond is a four-sided figure whose sides are all the same length. People play baseball on a diamond-shaped field.

$$\begin{array}{r} 4 \\ 3 \overline{) 12} \end{array} \leftarrow$$

dividend

The dividend is the number that is divided (in long division). The dividend divided by the divisor is the quotient (plus a remainder).

$$4 \div 2 = 2$$

$$6 \div 3 = 2$$

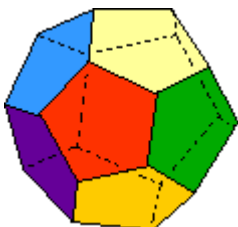

division

Division is an operation that divides a number into portions.

$$\begin{array}{r} 4 \\ 3 \overline{) 12} \end{array} \leftarrow$$

divisor

The divisor is the number that the dividend is divided by (in long division). The dividend divided by the divisor is the quotient (plus a remainder).

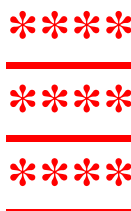

dodecahedron

A dodecahedron is a twelve-sided geometric solid whose faces are pentagons.

2 x

double

Double means twice or two times.

12

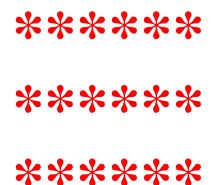

dozen

Dozen is another word for twelve.

eight

Spiders have eight legs. Stop signs have eight sides.

18

eighteen

Eighteen is the number between seventeen and nineteen.

80

eighty

Eighty is the number between seventy-nine and eighty-one.

11

eleven

Eleven is ten plus one.

ellipse

An ellipse is a flattened circle.

=

equal

When two things are equal they are exactly the same in number, quality, or amount.

equilateral triangle

The sides of an equilateral triangle are all the same length.

0, 2, 4, 6, 8, 10, ...

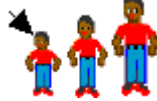

even number

An even number is divisible by two.

Fahrenheit

Fahrenheit is a measure of temperature that is abbreviated F. Water freezes at 32°F and boils at 212°F.

first

The first person or thing comes before the others.

15

fifteen

Fifteen is the number after fourteen (14) and before sixteen (16).

50

fifty

Fifty is the number after forty nine (49) and before fifty one (51).

5

five

People have five fingers on each hand.

40

forty

Forty is the number after thirty nine (39) and before forty one (41).

4

four

Squares have four sides. Cats and dogs have four legs.

14

fourteen

Fourteen is the number after thirteen (13) and before fifteen (15).

fractal

Fractals are patterns within patterns within patterns.

1/2

fraction

A fraction is a part of a whole. Half of an apple is a fraction of an apple. The top number in a fraction is called the numerator; the bottom number in a fraction is called the denominator.

geometry

Geometry is the mathematical study of points, lines, angles, and solids.

graph

A graph is a diagram that shows relationships between things.

>

greater than

The mathematical symbol > means "greater than."

When one number is greater than a second number, the first one is bigger than the second. For example, 4 is greater than 2, or 4 > 2.

1/2

half

When something is divided into two equal parts, each of these two parts is half of the original object.

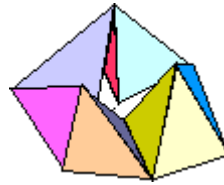

heart

The heart is a shape that often symbolizes love.

heptagon

A heptagon is a seven-sided figure.

hexaflexagon

A hexaflexagon is a folded geometric figure that can be "flexed" to expose its many sides.

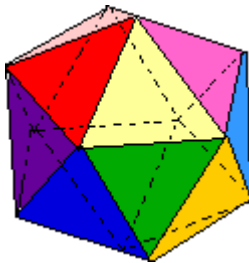

hexagon

A hexagon is a six-sided figure. Beehives have hexagonal cells.

100

hundred

One hundred is the number after 99 and before 101.

icosahedron

An icosahedron is a twenty-sided geometric solid.

isosceles triangle

An isosceles triangle has two sides that are the same length and two angles that are the same.

kite

A kite is a four-sided figure in which the two pairs of adjacent sides have the same length.

less than

The mathematical symbol < means "less than." When one number is less than a second number, the first one is smaller than the second. For example, 1 is less than 2, or $1 < 2$.

line segment

A line segment is a portion of a line.

quotient remainder
divisor) dividend

long division

In long division, the dividend is divided by the divisor, resulting in a quotient plus a remainder.

5	4	6
6	5	4
4	6	5

magic square

In a magic square, the rows, columns, and diagonals all add up to the same number.

$$1 \times 2 = 2$$

$$2 \times 3 = 6$$

mathematics

Mathematics is the study of numbers, shapes, patterns, and logical reasoning.

1,000,000

million

A million is a thousand thousands. The dinosaurs lived millions of years ago.

minus

The mathematical symbol - means "minus." Four minus three is written, $4 - 3$.

Möbius strip

A Möbius strip is a piece of paper with only one side!

multiplication

Multiplication is a mathematical operation used to compute areas and do other calculations.

multiply

The mathematical symbol x means "multiply." Four times three is written, 4×3 .

nine

There are nine planets in our solar system and nine players on a baseball team.

number line

Numbers correspond to points on a number line.

0 1 2 3
4 5 6 7
8 9 10

number

Numbers tell you "how many" or "how much."

3 ←
4

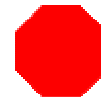

numerator

The numerator is the top number in a fraction.

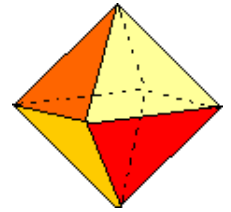

obtuse angle

An obtuse angle is greater than ninety degrees.

octagon

An octagon is an eight-sided figure. Stop signs are octagons.

octahedron

An octahedron is an eight-sided geometric solid.

1, 3, 5, 7, 9, 11, ...

odd number

An odd number is not divisible by two.

1

one

One is a small number.

1/2

one half

When something is divided into two equal parts, each of these two parts is one half of the original object.

orb

A ball-shaped object is an orb.

oval

An oval is an egg-shaped figure.

parallel

Parallel lines extend in the same direction, are always the same distance apart, and never meet.

parallelogram

A parallelogram is a four-sided figure whose opposite sides are parallel.

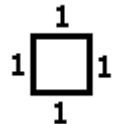

pattern

A pattern is something that is repeated.

pentagon

A pentagon is a five-sided figure.

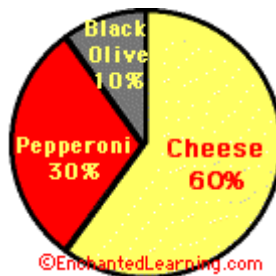

perimeter

Perimeter is the distance around the edges of a figure. For example, the perimeter of a square with side length of a is $a+a+a+a=4$ times a.

perpendicular

When two lines are perpendicular, they are at right angles (90 degrees).

pie chart

A pie chart (also called a circle graph) is a diagram that is useful for displaying information about the percentages or parts of a whole.

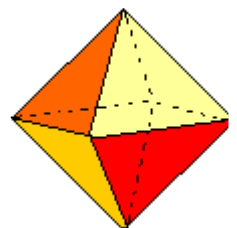

point

A point is an exact location, a spot with no width or thickness.

polygon

A polygon is a many-sided figure with straight edges.

polyhedron

Polyhedra are solids whose faces are polygons.

2,3,5,7,11,13,17

prime number

A prime number is a positive number that has exactly two factors, 1 and itself. Alternatively, you can think of a prime number as a number greater than one that is not the product of smaller numbers. For example, 13 is a prime number because it can only be divided evenly by 1 and 13. For another example, 14 is not a prime number because it can be divided evenly by 1, 2, 7, and 14. The number one is not a prime number because it has only one factor, 1 itself.

protractor

A protractor is a device that measures angles.

pyramid

A pyramid is a shape that has a flat polygonal base and triangular sides that meet at a point on the top. The pyramids in Egypt are huge buildings built by ancient Egyptians.

quadrilateral

A quadrilateral is a four-sided figure. The square, rectangle, rhombus, trapezoid, kite, and parallelogram are quadrilaterals.

$$\begin{array}{r} 4 \\ 3 \overline{) 12} \end{array}$$

quotient

The quotient is the answer in long division. The dividend divided by the divisor is the quotient (plus a remainder).

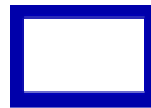

radius

The radius is the distance from the center of a circle (or a sphere) to the edge.

$$\frac{1}{2}$$

ratio

A ratio is the relationship between two numbers, as defined by the result you get when you divide one by the other.

rectangle

A rectangle is a four-sided figure whose sides are at right angles to each other.

$$\begin{array}{r} 5 \text{ R. } 1 \\ 2 \overline{) 11} \\ \underline{-10} \\ 1 \end{array}$$

remainder

The remainder is the fractional part of the answer in long division. The dividend divided by the divisor is the quotient plus the remainder.

rhombus

A rhombus is a parallelogram with equal-length sides.

**I, V, X, L,
C, D, M**

Roman numerals

Thousands of years ago, in ancient Rome, the Romans used a system of numbers that we call Roman numerals. In this system, I=1, V=5, X=10, L=50, C=100, D=500, and M=1,000.

scalene triangle

The sides of a scalene triangle are all different lengths.

second

The second person or item comes after the first and before the third.

right angle

A right angle looks like the corner of a square; it extends ninety degrees.

right triangle

A right triangle has one angle that is a right angle (extending 90 degrees).

semicircle

A semicircle is half a circle.

seven

There are seven days in the week.

shapes

Everything has a shape.

six

Insects have six legs.

sphere

A sphere is a ball-shaped object.

1	
2	
3	
4	
5	/

$$1-1=0$$

$$5-3=2$$

square

A square has four, equally long sides which are at right angles to each other.

star

A star is a shape that has many points.

subtraction

Subtraction is the operation of taking one number away from another.

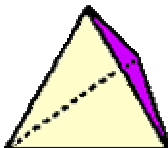

tally marks

Tally marks are a quick way of keeping track of numbers in groups of five. One vertical line is made for each of the first four numbers; the fifth number is represented by a diagonal line across the previous four.

ten

People have ten fingers and ten toes.

tetrahedron

A tetrahedron is a pyramid formed by four triangles.

third

The third person or item comes after the first and second.

13

thirteen

Thirteen is the number after twelve (12) and before fourteen (14).

30

thirty

Thirty is the number after twenty nine (29) and before thirty one (31).

1,000

thousand

One thousand is a whole number that is equal to 100 times 10.

three

Three is the number between 2 and 4. A tricycle has three wheels. A triangle has three sides. A Triceratops has three horns. Tri means three!

torus

A torus is a doughnut-shaped object.

trapezoid

A trapezoid is a four-sided figure with exactly two parallel sides.

triangle

A triangle is a geometric figure that has three sides.

12

twelve

Twelve (12) is the number between eleven (11) and thirteen (13). Dozen is another word for twelve.

twenty

There are twenty (20) apples above.

2

two

We have two eyes, two ears, two arms, and two legs.

1 + 1 ≠ 3

unequal

Two things are unequal if they are not the same.

Venn diagram

A Venn diagram is a diagram that uses overlapping circles to show relationships among sets of things.

0

zero

Zero is a number that stands for the absence of size or quantity.

Measurement-Related Words

centigrade

Centigrade is a measure of temperature that is abbreviated C. Water freezes at 0°C and boils at 100°C.

centimeter

A centimeter is a unit of measurement that is equal to one-hundredth of a meter.

cup

A cup is a unit of measure of volume equal to eight ounces of water. Two cups are a pint and four cups are a quart.

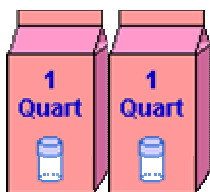

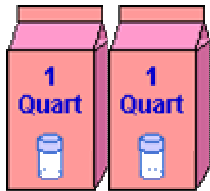

fahrenheit

Fahrenheit is a measure of temperature that is abbreviated F. Water freezes at 32°F and boils at 212°F.

foot

A foot is a unit of measurement that is equal to twelve inches.

gallon

Four quarts make one gallon.

inch

An inch is a unit of measurement that is equal to one-twelfth of a foot. An inch is 2.54 cm.

kilogram

A kilogram is a unit of weight or mass that is equal to 1,000 grams or about 2.2 pounds.

measuring cup

A measuring cup lets you measure substances by volume (cups or liters); it is useful in baking and cooking.

meter

A meter is a unit of length; 100 centimeters are in a meter. A meter is a little more than 3 feet (it is about 39.4 inches).

ounce

An ounce is a unit of weight. One cup of water weighs eight ounces.

pint

A pint is a unit of measure of volume equal to two cups. Two pints make a quart.

protractor

A protractor is a device that measures angles.

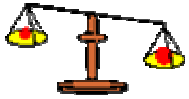

quart

Four quarts make one gallon.

ruler

A ruler is a straight piece of material that is used for measuring distances or drawing straight lines.

scale

A scale is a machine for weighing things.

tape measure

A tape measure is used to measure length.

thermometer

A thermometer is used for telling what the temperature is.

weather balloon

A weather balloon is a giant balloon that is sent high in the sky to measure weather information, like temperature, wind speed, and air pressure.

windsock

A windsock is a device that shows which way the wind is blowing and the wind's speed.

yard

A yard is equal to three feet or 36 inches.

yardstick

A yardstick is three-foot -long stick; it is used for measuring things.

Money-Related Words

bill

A bill is paper money.

cent

Cent is another word for penny.

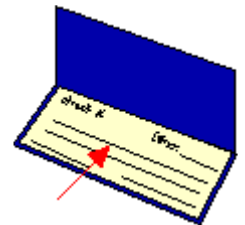

change

Your change is the money you get back after paying for something.

change purse

Coins are carried in a change purse.

check

A check is a piece of paper that is an order for a bank to pay money from a bank account.

checkbook

Checks are kept in a checkbook.

coin

A coin is a piece of metal money.

credit card

A credit card is a card that lets you buy things on credit -- you pay for the items later.

dime

A dime is a US coin worth ten cents.

dollar

A dollar is worth 100 cents.

earn

You can earn money by working.

money

Money is used to buy things.

nickel

A nickel is a U.S. coin worth five cents.

penny

A penny is a coin worth one cent.

piggy bank

Children put money in piggy banks.

purse

A purse is a small bag in which some girls and women carry their money and other things.

quarter

A quarter is a coin that is worth 25 cents. Four quarters make one dollar.

wallet

People carry money in a wallet.

whistle

A whistle makes a loud, shrill sound.

People and Occupations

actor

An actor is someone who performs a role in a play or a movie.

archer

An archer shoots an arrow with a bow.

army

An army is a unified group of people who are trained to fight on land.

artist

An artist creates works of art.

athlete

Someone who is good at a sport is an athlete.

baby

A baby is a very young person.

baker

A baker bakes food in the oven, like breads, cakes, and cookies.

ballerina

A ballerina is a woman who does ballet dancing.

boy

A boy is a young man.

brother

Brothers are boys or men who have the same parents.

bully

A bully is person who is mean to others.

champion

A champion is the winner of a game or other competition.

child

A child is a young person.

children

Children are young people.

dad

Dad is another word for father.

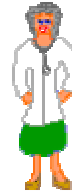

daughter

A daughter is a female offspring.

diver

Divers swim under the water.

doctor

A doctor can help you when you're sick or hurt.

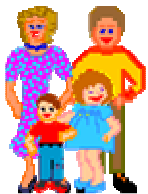

emperor

An emperor is an unelected ruler of a country.

explorer

An explorer explores unknown places and discovers new things. For example, Magellan was an explorer who led the first expedition that sailed around the Earth.

family

A family is a group of related people.

father

A father is a man who has a child.

firefighter

A firefighter is a person who puts out fires and saves people's lives.

friends

Friends are people who like and respect each other.

girl

A girl is a young woman.

grandfather

The father of your father or mother is your grandfather.

grandmother

The mother of your father or mother is your grandmother.

grandparents

Grandparents are grandmothers and grandfathers.

heir

An heir is a person who has inherited or will inherit something of value.

heiress

An heiress is a girl or woman who has inherited or will inherit a lot of money.

hero

A hero is someone who is admired for great courage, noble character, and performing good deeds, like a firefighter.

human being

A human being is a person.

husband

A husband is a married man.

I

I is a word that refers to the person who is speaking or writing.

imp

An imp is a mischievous child.

infant

An infant is a baby.

inventor

An inventor designs and creates new, useful things.

janitor

A janitor is someone who looks after and cleans a building.

kid

A kid is a young person.

kin

Kin are your relatives.

king

A king is a hereditary ruler of a country.

lady

A lady is a woman.

librarian

Librarians take care of libraries and help people find books.

magician

A magician performs magic tricks.

man

Boys grow up to be **men**.

me

Me is a word that refers to the person who is speaking or writing.

mom

Mom is another word for mother.

mother

A mother is a woman who has a child.

mummy

A mummy is a preserved dead body.

nurse

A nurse takes care of you when you are sick or hurt.

@ZoomDinosaurs.com

paleontologist

A paleontologist is a scientist who studies ancient life (like dinosaurs), mostly by looking at fossils.

people

People are human beings.

person

A person is a human being.

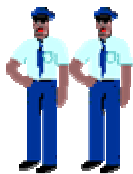

pioneer

A pioneer is a person who is the first to do something, like settle in a new area or do research.

pitcher

A pitcher is someone who throws a ball or other item.

police

The police enforce laws and keep order.

president

A president is the elected leader of a country or organization.

prince

A prince is the son of a king or queen.

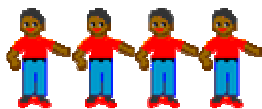

princess

A princess is the daughter of a king or queen.

pupil

A pupil is a student, a person who is learning.

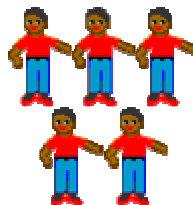

quadruplets

Quadruplets are four siblings (brothers and/or sisters) who are born at the same time from the same mother.

queen

A queen is a hereditary ruler of a country.

quintuplets

Quintuplets are five siblings (brothers and/or sisters) who are born at the same time from the same mother.

samurai

Samurai were Japanese warriors.

scuba diver

Scuba divers swim under the water and carry their own air in a tank on their back.

sister

Sisters are girls or women who have the same parents.

soldier

A soldier is a person who fights for a country.

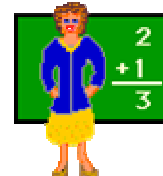

son

A son is a male offspring.

student

A student is a person who is learning.

teacher

A teacher is someone who helps you learn.

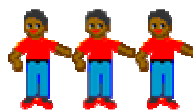

team

A team is a group of people that work together towards a goal.

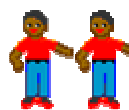

toddler

Toddlers are young children.

triplets

Triplets are three siblings (brothers and/or sisters) who are born at the same time.

twins

Twins are two siblings (brothers and/or sisters) who are born at the same time.

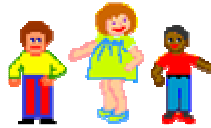

us

Us is a word that means yourself and others.

veteran

A veteran is a person who has had experience in an occupation. For example, ex-soldiers are often called veterans - especially those who have served in a war.

we

We is a word that means yourself and others.

wife

A wife is a married woman.

woman

Girls grow up to be women.

you

You is a word that refers to another person or persons.

youngster

A youngster is a young person.

Pets

©EnchantedLearning.com

Abyssinian Cat

An ancient, short-haired domesticated breed of cat.

©EnchantedLearning.com

Airedale terrier

The Airedale terrier is a dog that was originally bred in England.

©ZoomSchool.com

Alaskan malamute

The Alaskan malamute is a powerful sled dog from Alaska.

angelfish

Angelfish are brightly-colored fish that live in warm water.

aquarium

You can look at fish in an aquarium.

©EnchantedLearning.com

basset hound

The Basset Hound is a lively and devoted dog that has short legs and long, droopy ears. It was originally bred to hunt rabbits and hares.

©ZoomSchool.com

beagle

The beagle is a friendly, playful dog. It was originally bred as a rabbit hunter.

black bear hamster

The black bear hamster is a docile, black, short-haired hamster.

©EnchantedLearning.com

bloodhound

The bloodhound is the heaviest hound dog and is an incredible scent tracker.

©ZoomSchool.com

Boston terrier

The Boston Terrier is an intelligent, lively, short-haired dog.

bulldog

The bulldog is a muscular, wrinkled, powerful dog that was originally bred in Britain.

bunny

A bunny is a young rabbit.

Burmese Cat

A short-haired breed of cat with golden eyes.

cage

Some people keep birds in cages.

canary

Canaries sing very well.

cat

Cats are mammals and are great pets. Cats were revered by the ancient Egyptians.

Chihuahua

The Chihuahua is a small, alert dog from Mexico.

clown fish

The clown fish is a colorful fish that lives with sea anemones.

cockatoo

Cockatoos are birds that have a large, feathery crest and a hooked bill. They are from Australia and Indonesia.

cocker spaniel

The cocker spaniel is a friendly, obedient dog that was originally bred to hunt birds.

collie

The collie is a friendly, intelligent, and obedient dog.

dachshund

The Dachshund is an active dog with a long body and short legs.

Dalmatian

The Dalmatian is a white dog that has dark spots.

Doberman

The Doberman is a loyal, intelligent dog.

dog

Dogs wag their tails when they're happy.

emperor angelfish

The emperor angelfish is a brightly-colored, flattened fish that lives in shallow warm waters.

fish

Fish live in the water and breathe with gills.

fish bowl

Fish swim around and around a fish bowl.

foal

A foal is a young horse.

frog

Frogs are amphibians. They begin as eggs, hatch into tadpoles (who breathe with gills), and grow up to be frogs (who breathe with lungs and lose their tail).

©ZoomSchool.com

Lhasa apso

The Lhasa apso is a small, long-haired dog that was originally bred in Tibet.

lizard

Lizards are a type of reptile.

macaw

Macaws are parrots from rainforests in the Americas.

mastiff

The mastiff is a huge, intelligent, and powerful dog that is often used as a guard dog.

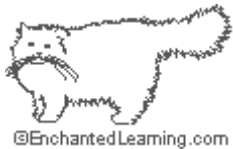

old English sheepdog

The old English sheepdog is an affectionate, long-haired dog that was originally bred in Great Britain.

Pekingese

The Pekingese is a small, long-haired dog with a flattened face. It was originally bred in China as a royal companion dog.

Persian Cat

The Persian is a long-haired domesticated cat with a flattened face and rounded eyes.

pets

Pets are animals that live with us.

pig

Pigs are hoofed mammals that oink!

piglet

A piglet is a young pig.

Pomeranian

The Pomeranian is a small, friendly, intelligent companion dog.

poodle

The poodle is a lively, intelligent dog that was originally bred to retrieve game from the water.

pug

The Pug is a loyal, affectionate dog that has a squarely-built body and a flat, wrinkled face. It was originally bred in China.

puppy

A puppy is a young dog.

rabbit

A rabbit is a small, cute mammal with big ears.

Rottweiler

The Rottweiler is a powerful, muscular, determined dog that was originally bred in Germany to guard and herd cattle.

Scottish terrier

The Scottish terrier (also known as the Scotty) is a small dog that was originally bred to hunt foxes and badgers.

sheepdog, old English

The old English sheepdog is an affectionate, long-haired dog that was originally bred in Great Britain.

snake

A snake is a reptile with a long, narrow body and no legs. It has skin with scales.

St. Bernard

A large, muscular, heroic dog originally from Switzerland.

tarantula

A tarantula is a large, hairy spider.

terrier

Terriers are dogs that were originally bred to drive small animals from their burrows.

turtle

Turtles are slow animals that have a very hard shell.

veterinarian

A veterinarian is a doctor who helps animals.

Yorkshire terrier

The Yorkshire terrier is a small, intelligent, long-haired dog.

zebrafish

Zebrafish are striped tropical fish.

Plant-Related Words

acorn

The acorn is the nut of an oak tree.

almond

An almond is a type of nut.

apple

An apple is a juicy fruit that grows on an apple tree.

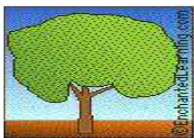

Appleseed, Johnny

Johnny Appleseed was a legendary man who planted apple trees through the USA. His real name was John Chapman, but he was called Johnny Appleseed because of his love for growing apple trees.

apple tree

An apple tree is a fruit tree.

Arbor Day

Arbor Day is a holiday that encourages tree planting and tree care. In the USA, Arbor Day is usually celebrated on the last Friday in April.

artichoke

The artichoke is a spiny, green vegetable.

avocado

The avocado is an oily, green fruit; it is sometimes called the alligator pear. Avocados grow on trees in warm areas.

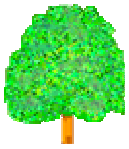

bamboo

Bamboo is a very useful plant from Asia. Pandas eat bamboo.

banana

Bananas are a sweet, yellow fruit.

bark

Bark is the hard, outer covering of the trunk, branches, and roots of trees.

blackberry

Blackberries are dark-colored, edible berries that grow on prickly vines.

bluebell

Bluebells are bell-shaped flowers.

bouquet

A bouquet is a bunch of flowers.

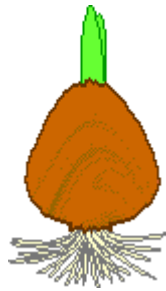

branch

A branch is a tree or other plant that grows from the trunk or stem.

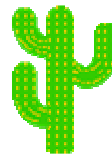

broccoli

Broccoli is a green vegetable.

bulb

A plant bulb will sprout into a new plant. Onions are bulbs.

cactus

A cactus is a prickly plant that lives in dry places.

California poppy

The California poppy is a small, cup-shaped flower that lives in dry areas.

carnation

A carnation is a flower; it can be white, pink, or red.

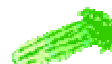

carrot

A carrot is an orange vegetable that grows underground.

cauliflower

Cauliflower is a white vegetable; it is related to broccoli.

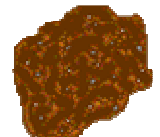

celery

Celery is a crisp, green vegetable.

cherries

Cherries are a sweet, tangy, red fruit.

compost

Compost is decayed organic matter that enriches soil.

corn

Corn is a yellow vegetable you can eat on its cob. Corn was grown by Native Americans for thousands of years before the Europeans settled in North America.

cucumber

Cucumber is a cool, crisp vegetable that is good in salad.

daffodil

The daffodil is a yellow flower that blooms early in the spring.

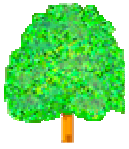

daisy

The daisy is a pretty flower.

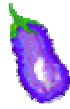

dandelion

Dandelions are weeds with pretty yellow flowers that turn into seed puff-balls.

deciduous

A deciduous plant loses its leaves in the winter. Apple trees are deciduous.

eggplant

An eggplant is a purple vegetable.

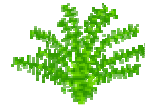

elm

The elm is a large, fast-growing deciduous tree.

evergreen

An evergreen plant doesn't lose its leaves in the winter.

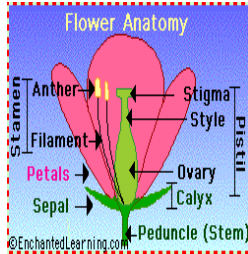

fern

A fern is a lacy, primitive plant.

fir tree

A fir is an evergreen tree; it doesn't lose its leaves in the winter.

flower

A flower makes seeds. Flowers are a plant's reproductive organs. Hummingbirds, bees, butterflies, and other animals drink the sweet nectar that is made by flowers.

forest

A forest is a large group of trees and underbrush where many animals live.

forget-me-nots

Forget-me-nots are plants that have beautiful blue flowers.

fruit

Fruit is the part of some plants that contains the seeds. Apples, strawberries, oranges, and bananas are fruit.

garden

Plants grow in a garden.

grapefruit

Grapefruits are a type of citrus fruit that sometime squirt you when you eat them.

grapes

Grapes are delicious fruit that grow on vines.

grass

Grass is a common flowering plant that is found all over the world.

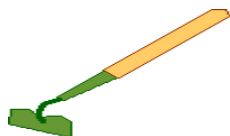

green bean

A green bean is a long, thin, green vegetable. It is pod that contains bean seeds. It is also called a string bean.

greenhouse

A greenhouse is a building, usually made out of glass, in which people grow plants.

hoe

A hoe is a garden tool.

holly

Holly is a tree with pointy leaves and red berries.

iris

Irises are beautiful flowers with long, thin, flat leaves.

ivy

Ivy is a vine.

jumping bean

A jumping bean is a seed pod in which a caterpillar lives. When the caterpillar moves, the seed pod moves. The caterpillar will turn into a moth eventually.

jungle

A jungle is a wild tropical growth of trees, plants, and animals.

kapok tree

The kapok tree is a large, deciduous tree that is native to tropical America, Africa, and the East Indies. This fast-growing tree is generally from 45 to 60 feet (14-18 m) tall; it is the tallest tree in Africa. The light-weight silky down from the seed pods is used as pillow stuffing, sleeping bag stuffing, and for other uses.

kelp

Kelp is brown seaweed that grows in cold water.

kiwi

The kiwi is a tangy fruit that grows in warm areas.

lawn

A lawn is a place outside where grass grows.

lawn mower

You can cut the grass with a lawn mower.

leaf

Plants use leaves to collect energy from sunlight.

lemon

A lemon is a sour, yellow fruit.

lettuce

Lettuce is a leafy vegetable that is good in salads.

lily

A lily is a funnel-shaped flower.

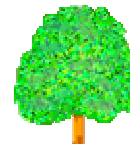

lime

A lime is a sour, green citrus fruit.

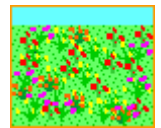

log

A log is a short piece of a tree trunk.

maple tree

Maple syrup comes from maple trees.

meadow

A meadow is a low, flat grassland.

melon

Melons are fruits that have a rind.

mushroom

Mushrooms are fast-growing fungi. They grow in dark, damp places.

nasturtium

Nasturtiums are plants with bright, pretty flowers and round leaves.

nectarine

A nectarine is a sweet, juicy fruit with smooth skin; it is related to the peach.

nut

A nut is a dry seed or fruit with a hard shell.

olive

An olive is an oily fruit that grows on an evergreen tree.

onion

Onions are sharp tasting vegetables.

orange

Oranges are sweet, juicy fruit.

orchid

Orchids are colorful flowers that live in warm areas.

palm tree

Palm trees are a primitive type of tree.

peach

Peaches are sweet, juicy fruit with fuzzy skin.

peanut

Peanuts grow underground; they are a type of legume.

pear

The pear is a sweet fruit with a thin skin.

pea pod

Peas grow in pea pods.

peas

Peas are small, round vegetables.

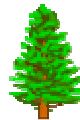

pepper

A pepper is a sharp-tasting, hollow vegetable. Peppers can be red, green, yellow, and orange.

pine cone

A pine cone contains many seeds from a pine tree.

pine tree

A pine is an evergreen tree; it doesn't lose its needle-like leaves in the winter.

plant

Plants are living things that get their food and energy from sunlight, soil and air.

plant pot

A plant pot is a container in which a plant is grown.

plum

A plum is a sweet, juicy, purple fruit.

pod

Peas grow in pea pods.

poppy

A poppy is a delicate flower.

potato

Potatoes are starchy vegetables that grow underground.

prune

A prune is a dried plum.

pumpkin

The pumpkin is a large, orange vegetable that grows on a vine.

radish

A radish is a sharp-tasting vegetable that grows underground.

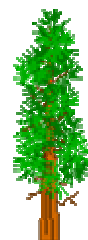

rain forest

A rain forest is a wet tropical environment teeming with plants and animals.

raspberry

Raspberries are a type of edible berry that grows on a prickly vine.

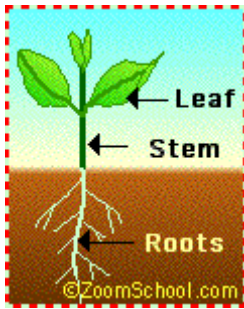

redwood

The redwood is the tallest tree, growing up to 360 feet tall.

rice

Rice is a food. It is a grain that grows in warm, wet soil. Rice is an important food in much of Asia.

roots

The roots are the parts of a plant that get water and other nutrients from the soil. Roots also store energy and provide support for the plant. Most roots grow underground.

rose

The rose is a beautiful flower with a sweet scent.

seed

Seeds grow into plants.

shamrock

Shamrocks are small green plants with three-part leaves.

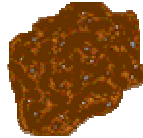

shovel

Shovels are used to dig.

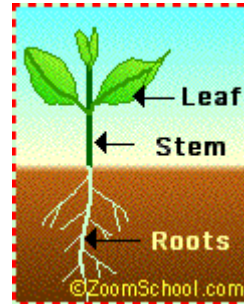

shrub

A shrub is a low-lying plant or bush that has a woody stem.

soil

Plants grow in soil.

stem

The stem is the part of a plant that provides support for the plant.

squash

Squash grows in warm weather.

stick

A stick is a small piece of wood.

strawberry

The strawberry is a sweet, red fruit.

string bean

A string bean is a long, thin, green vegetable. It is a pod that contains bean seeds. It is also called a green bean.

stump

A stump is the part of a tree that is left in the ground after it has been cut or has fallen down.

tomato

Tomatoes are soft and tangy; they grow on vines.

tree

A tree is a plant with a trunk, leaves, and roots.

tree rings

By counting the number of tree rings in a tree's trunk, you can tell how old the tree was.

trunk

A trunk is the major support of a tree.

tulip

The tulip is a cup-shaped flower.

twig

A twig is a small tree branch.

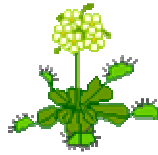

vegetable

Vegetables are very good for you.

vegetation

The plant life of an area is its vegetation.

Venus flytrap

The Venus flytrap is a plant that catches and digests bugs.

vine

A vine is a plant that doesn't have its own support. It grows on other objects or creeps along the ground.

violets

Violets are deep purple flowers.

walnut

A walnut is an edible nut from the walnut tree.

watering can

You can water plants with a watering can.

watermelon

Watermelon is a large, delicious, red fruit with a thick green rind.

wheat

Wheat is a grain. Flour is made from ground-up wheat.

wheelbarrow

A wheelbarrow is a small cart with one wheel and two handles.

wood

Wood is a useful material obtained from tree trunks. Wood is used to make furniture, build houses, and make paper.

yam

Yams are sweet vegetables that grow underground.

yard

A yard is a small outside area.

yucca

Yucca is a plant with stiff leaves; it lives in dry areas.

zinnia

Zinnias are pretty flowers.

zucchini

Zucchini is a type of squash.

Prepositions

A preposition is a word that shows the spatial (space), temporal (time), or logical relationship of its object to the rest of the sentence. The words above, near, at, by, after, with and from are prepositions.

above

Above means over or higher. The cloud is above the mountain.

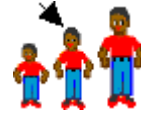

around

When something is around something, it is near or close to it.

behind

When you are behind something, you are to the back of it.

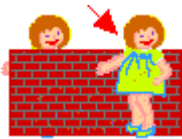

between

When something is between, it is located in a position separating two other items.

inside

The bird is in the cage.

in front of

The girl on the right is in front of the bricks.

inside

The bird is inside the cage.

on

The vase is on the table.

out

He is going out the door.

outside

When you are outside, you are not in a building or other structure.

over

The cloud is over the mountain.

under

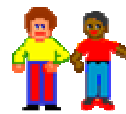

The cat is under the table.

©ZoomSchool.com

underground

Many animals live underground.

with

With means in the company of or having. The children above are with each other.

Shapes

circle

A circle is round.

cone

A cone is a shape that has a point at one end and a circular opening at the other end.

crescent

A crescent is the shape of the moon around the time of the new moon.

cube

A cube is a solid geometric figure with six square faces.

curve

A curve is a wavy line or surface.

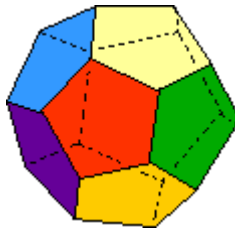

cylinder

A cylinder is a figure with a long round body .

diamond

A diamond is a four-sided figure whose sides are all the same length. People play baseball on a diamond-shaped field.

dodecahedron

A dodecahedron is a twelve-sided regular geometric solid composed of pentagons.

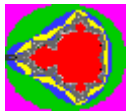

ellipse

An ellipse is a flattened circle.

equilateral triangle

The sides of an equilateral triangle are all the same length.

fractal

Fractals are patterns within patterns within patterns.

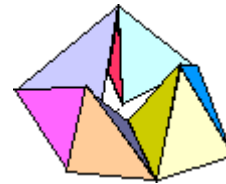

heart

The heart is a shape that often symbolizes love.

heptagon

A heptagon is a seven-sided figure.

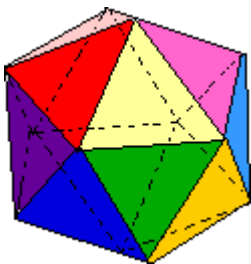

hexaflexagon

A hexaflexagon is a folded geometric figure that can be "flexed" to expose its many sides.

hexagon

A hexagon is a six-sided figure. Bee hives have hexagonal cells.

icosahedron

An icosahedron is a twenty-sided regular geometric solid.

isosceles triangle

An isosceles triangle has two sides that are the same length and two angles that are the same.

kite

A kite is a four-sided figure in which the two pairs of adjacent sides have the same length.

line segment

A line segment is a portion of a line.

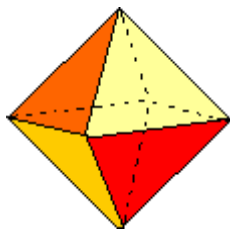

Möbius strip

A Möbius strip is a piece of paper with only one side!

octagon

An octagon is an eight-sided figure. Stop signs are octagons.

octahedron

An octahedron is an eight-sided regular geometric solid.

orb

A ball-shaped object is an orb.

oval

An oval is an egg-shaped figure.

parallelogram

A parallelogram is a four-sided figure whose opposite sides are parallel.

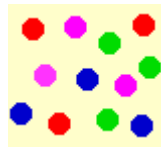

pentagon

A pentagon is a five-sided figure.

point

A point is a very small dot.

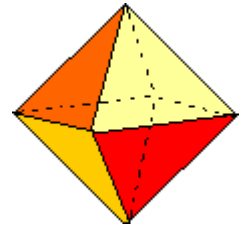

polka dots

Polka dots are patterns of dots.

polygon

A polygon is a many-sided figure with straight edges.

polyhedron

Polyhedra are solids made from polygons.

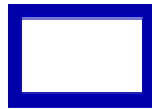

pyramid

The pyramids in Egypt are huge buildings that have a square base and triangular sides.

quadrilateral

A quadrilateral is a four-sided figure. The square, rectangle, rhombus, trapezoid, kite, and parallelogram are quadrilaterals.

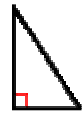

rectangle

A rectangle is a four-sided figure whose sides are at right angles to each other.

rhombus

A rhombus is a parallelogram with equal-length sides.

right triangle

A right triangle has one angle that is a right angle (extending 90 degrees).

round

Round things are curved. A circle is round.

scalene triangle

The sides of a scalene triangle are all different lengths.

semicircle

A semicircle is half a circle.

shapes

Everything has a shape.

sphere

A sphere is a ball-shaped object.

spiral

A spiral is a curve that winds in on itself. Snail shells have a spiral pattern.

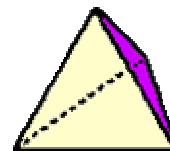

square

A square has four, equally long sides which are at right angles to each other.

star

A star is a shape that has many points.

tetrahedron

A tetrahedron is a pyramid formed by four triangles.

torus

A torus is a doughnut-shaped object.

trapezoid

A trapezoid is a four-sided figure with two parallel sides.

triangle

A triangle has three sides.

zigzag

A zigzag is a line that sharply turns back and forth.

Sports

archery

In archery, you shoot an arrow (using a bow), aiming at a target.

ball

A ball is round and fun to bounce, throw, kick, or catch.

baseball

Baseball is team game that is played with a ball and a bat.

baseball bat

You hit a baseball with a baseball bat.

basketball

Basketball is a sport in which you get points for throwing a ball into a basket.

dart

A dart is a small, pointed object that is thrown at a target in a game.

dartboard

A dartboard is the target used when playing darts.

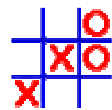

exercise

Exercise is very good for you.

football

Football is played with an odd-shaped ball in the USA.

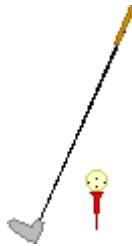

game

People enjoy playing games.

go

When you go, you are moving.

golf

Golf is a sport in which a ball is hit into a series of holes using golf clubs.

golf ball

A golf ball is a small ball used in golf - the ball sits on a tee in the grass.

golf club

Golf clubs are used to hit a golf ball.

helmet

A helmet protects your head.

ice skate

When you wear ice skates, you can glide across ice.

judo

Judo is one of the martial arts.

jump

When you jump, you go up and down.

jump rope

There are a lot of different ways to jump rope.

karate

Karate is one of the martial arts.

martial arts

The martial arts include Aikido, Judo, Karate, Tae Kwon Do, and other sports.

medal

A medal is an award that you can wear.

mitt

A baseball mitt is a glove used to catch balls.

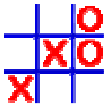

move

When you move, you are not still.

Olympics

The Olympic Games began over 2700 years ago in ancient Greece.

play

When you play, you are having fun.

racket

A racket is used to hit a ball or shuttlecock in sports like tennis and badminton.

©EnchantedLearning.co

ride

When you take a ride, you travel on something else, like a bicycle, a horse, or other means of transportation.

run

Running is faster than walking.

roller skate

When you wear roller skates, you can roll along the ground.

ski

When you ski, you glide over snow or water.

soccer ball

A soccer ball is made up of pentagons and hexagons.

sports

Playing sports is fun and good exercise.

stadium

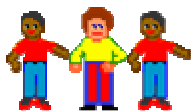

A stadium is a large building in which sports events are held.

ZoomSchool.com

swim

When you swim, you move around in the water.

team

A team is a group of people that work together towards a goal.

tee

A tee holds a ball in position so you can hit it.

tennis

Tennis is a sport in which a ball is hit over a net with a racket.

tennis racket

A racket is used to hit a ball or shuttlecock in sports like tennis and badminton.

throw

When you throw something, you use your arm to send it through the air.

Storytime Words

act

When you act, you do something or perform a role.

actor

An actor is someone who performs a role in a play or a movie.

angel

An angel embodies goodness.

costume

People wear costumes to pretend they are someone or something else.

castle

A castle is a huge, fancy building where a king or queen lives.

crown

A crown is a fancy hat worn by kings and queens.

dragon

A dragon is a big, scary, fire-breathing, make-believe beast.

emperor

An emperor is an unelected ruler of a country.

Once upon a time...

ghost

Ghosts are make-believe. Boo!

folk tales

Folk tales are stories that are passed on from generation to generation.

king

A king is a hereditary ruler of a country.

leprechaun

mermaid

A mermaid is a make-believe creature who is half woman, half fish.

monster

Monsters are scary and make-believe.

mummy

A mummy is a preserved dead body.

ogre

Ogres are ugly, scary and make-believe.

palace

A palace is a huge house where a king or queen lives.

pirate

Pirates robbed ships on the high seas.

prince

A prince is the son of a king or queen.

princess

A princess is the daughter of a king or queen.

queen

A queen is a hereditary ruler of a country.

Once upon a time...

story

A story tells you about an event. It can be real or make-believe.

sword

A long time ago, soldiers fought with swords.

Once upon a time...

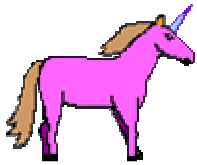

tale

A tale is a story.

treasure chest

A treasure chest is a lidded, locked box filled with valuables.

unicorn

A unicorn is a mythical, one-horned animal.

wand

A wand is a thin rod that you can carry.

witch

A witch is a make-believe woman who has magical powers.

Time-Related Words

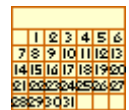

autumn

Autumn is the season between summer and winter. Another name for autumn is fall.

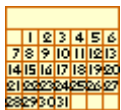

birthday

You have a birthday every year.

calendar

A calendar lets you know what day it is.

April

April is the fourth month of the year.

August

August is the eighth month of the year.

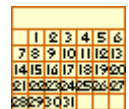

cuckoo clock

A cuckoo clock has a mechanical bird that sings every hour.

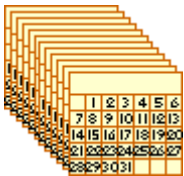

day

The sun is up during the day.

December

December is the twelfth month of the year.

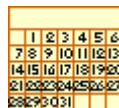

century

A century is 100 years.

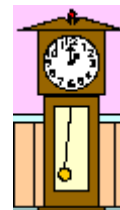

clock

If you want to know what time it is, look at a clock.

February

February is the second month of the year.

grandfather clock

A grandfather clock is a large, free-standing pendulum clock.

hour

There are 24 hours in a day.

evening

Evening is the late part of the day and the early part of the night.

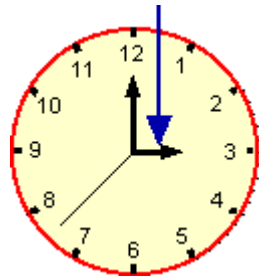

fall

Fall is the season between summer and winter. Another name for fall is autumn.

hourglass

An hourglass measures time as sand falls through a thin opening.

hour hand

An hour hand on a clock tells you what hour it is.

January

January is the first month of the year.

July

July is the seventh month of the year.

June

June is the sixth month of the year.

Jurassic period

Dinosaurs flourished during the Jurassic period, 208-146 million years ago. Stegosaurus and Apatosaurus were two dinosaurs that lived during the Jurassic.

late

The sun sets late in the day.

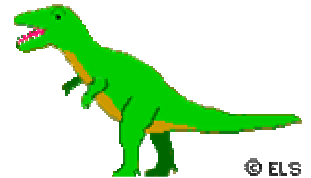

March

March is the third month of the year.

May

May is the fifth month of the year.

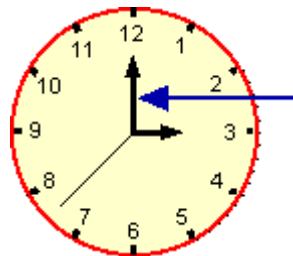

Mesozoic Era

The Mesozoic Era was the time when dinosaurs lived and mammals evolved. The Mesozoic lasted from 250 million to 65 million years ago. It began and ended with mass extinctions.

midnight

Midnight is 12:00 at night.

minute hand

A minute hand on a clock tells you how many minutes past the hour it is.

month

There are 12 months in a year: January, February, March, April, May, June, July, August, September, October, November, and December.

morning

The sun rises in the morning.

night

At night, when the sun goes down, you can see stars in the sky.

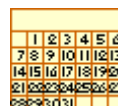

noon

Noon is midday, 12:00, when the sun is closest to overhead.

November

November is the eleventh month of the year.

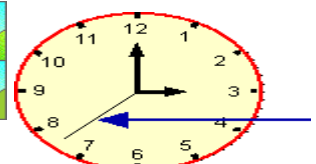

October

October is the tenth month of the year.

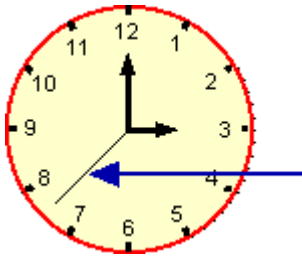

seasons

There are four seasons in the year: winter, spring, summer, and fall (also called autumn).

second

There are 60 seconds in a minute.

second hand

The second hand on a clock tells you how many seconds have gone by.

September

September is the ninth month of the year.

spring

Spring is the season after winter and before summer.

summer

Summer is the season between spring and fall (autumn).

sunrise

Sunrise is the time when the sun rises.

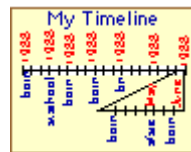

sunset

Sunset is the time when the sun sets below the horizon.

time

Time is measured in seconds, minutes, hours, days, weeks, months, and years.

timeline

A timeline is a graphic display that shows a series of events that happen in a time period.

time zone

The Earth is divided into 24 time zones so that everyone in the world can be on roughly similar schedules (like having noon when the sun is highest in the sky).

Saturday
April 29, 2006
Pacific Time (USA)

today

Today is the day it is right now.

Triassic period

Dinosaurs and mammals first appeared during the Triassic period, which lasted from 248 million to 208 million years ago.

watch

A watch is a small clock you can take with you to tell time.

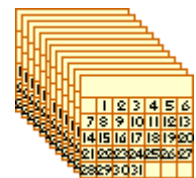

week

There are 7 days in a week: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, and Saturday. There are 52 weeks in a year.

winter

Winter is the season between fall and spring. In the Northern Hemisphere, winters are cold; in the Southern Hemisphere, they are warm.

year

A year consists of 12 months, 52 weeks, or 365 days.

Tools

awl

An awl is a tool used to make small holes in things.

ax

An ax is useful for chopping wood.

chisel

A chisel is a tool used to carve wood, marble, or other materials.

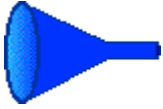

drill

A drill makes holes in things.

file

A file is used to smooth things.

funnel

A funnel is a device that lets you pour things from one container to another.

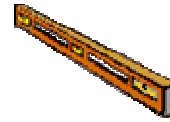

hammer

A hammer is good for pounding nails into wood.

hatchet

A hatchet is an ax with a short handle.

level

A level is a tool that checks if both sides of something are at the same height.

nail

A nail is a long, thin piece of metal that you can hammer into wood.

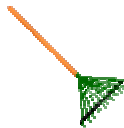

nut

You are using a computer right now.

connect-the-dots

When you do a connect-the-dots puzzle, you make a picture.

costume

People wear costumes to pretend they are someone or something else.

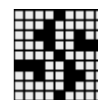

crafts

Crafts are fun, artistic activities.

crayons

Crayons are colorful wax sticks that are used for drawing.

crossword puzzle

A crossword puzzle has interlocking words that you guess from clues.

dance

When you move your body rhythmically, you are dancing.

dart

A dart is a small, pointed object that is thrown at a target in a game.

dartboard

A dartboard is the target used when playing darts.

dice

Dice are cubes with numbers on each side that are used in games. A single one is called a die.

disc

A compact disc contains a lot of encoded information, like computer games or music.

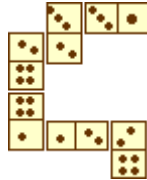

doll

Dolls are toys that look like tiny people.

dollhouse

A dollhouse is a tiny house for dolls.

dominoes

Dominoes is a game played with tiles that have numbers on them.

doodle

A doodle is a quick drawing done with little thought.

drawing

A drawing is a picture of something.

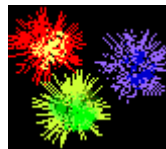

easel

Some artists draw at an easel.

exercise

Exercise is very good for you.

fireworks

Fireworks are beautiful explosions in the sky that people send up for a celebration.

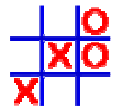

fishing rod

People use fishing rods to catch fish.

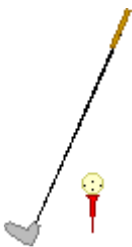

football

Football is played with an odd-shaped ball in the USA.

game

People enjoy playing games.

golf

Golf is a sport in which a ball is hit into a series of holes using golf clubs.

golf ball

A golf ball is a small ball used in golf - the ball sits on a tee in the grass.

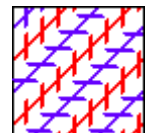

golf club

Golf clubs are used to hit a golf ball.

ice skate

When you wear ice skates, you can glide across ice.

illusion

An illusion is something that tricks your eyes.

Internet

The Internet is a group of connected computers. You are surfing the Internet right now!

jack-in-the-box

A jack-in-the-box is a toy that can surprise you!

jack-o'-lantern

A jack-o'-lantern looks scary when it's lit up!

jacks

Jacks is a traditional children's game.

jigsaw puzzle

To put a jigsaw puzzle together, you match shapes.

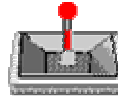

jog

Jogging is good exercise.

jokes

Do you know any good jokes?

joystick

A joystick is used to play some computer games.

judo

Judo is one of the martial arts.

juggle

It takes good coordination to juggle.

jump rope

There are a lot of different ways to jump rope.

©ZoomSchool.com

kaleidoscope

A kaleidoscope is a device that makes beautiful, colorful patterns.

karate

Karate is one of the martial arts.

kite

You can fly a kite on windy days.

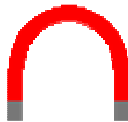

knitting

Sweaters and socks are made by knitting.

magazine

A magazine is published periodically.

magnet

A magnet attracts things made of iron.

martial arts

The martial arts include Aikido, Judo, Karate, Tae Kwon Do, and other sports.

mask

A mask covers your face.

maze

Getting through the passages of a maze is tricky.

mitt

A baseball mitt is a glove used to catch balls.

©J.CoI

nursery rhyme

Nursery rhymes are simple rhymes that most children enjoy.

oil painting

An oil painting is a picture made using oil paints.

Olympics

The Olympic Games began over 2700 years ago in ancient Greece.

origami

Origami is the art of folding paper into beautiful shapes.

MOM **2002**

paintbrush

A paintbrush is used to paint things.

painting

A painting is a picture made using paints.

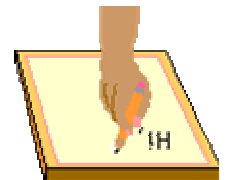

palette

A palette holds an artist's paints.

palindrome

A palindrome is a word, phrase or number that reads the same forwards or backwards. Some palindromes are: the name Bob, the number 101, and the phrase, "Madam, I'm Adam."

pen pal

A soccer ball is made up of pentagons and hexagons.

sports

Playing sports is fun and good exercise.

stadium

A stadium is a large building in which sports events are held.

sword

A long time ago, soldiers fought with swords.

tangram

A tangram is a traditional Chinese puzzle that can be made into many shapes.

team

A team is a group of people that work together towards a goal.

teddy bear

Teddy bears are fun to cuddle.

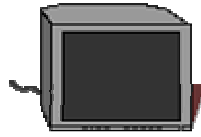

tee

A tee holds a ball in position so you can hit it.

telescope

A telescope is an optical device that makes faraway objects appear closer and larger, allowing us to see distant objects in space.

television

A television is a machine that receives pictures and sounds. People watch and listen to shows on television.

tennis

Tennis is a sport in which a ball is hit over a net with a racket.

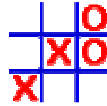

tennis racket

A racket is used to hit a ball or shuttlecock in sports like tennis and badminton.

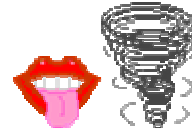

tent

A tent is a temporary shelter made of fabric.

tic-tac-toe

Tic-tac-toe is a game for two players. The winner has to get three marks in a row.

tongue twister

Tongue twisters are hard to say!

toys

We play with toys.

train

A train has an engine that pulls railroad cars along a track.

treasure chest

A treasure chest is a lidded, locked box filled with valuables.

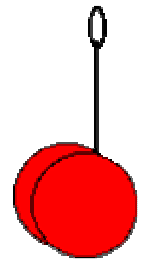

vacation

A vacation is a time of rest or a change of everyday activities.

wagon

You can pull things in a wagon.

yo-yo

A yo-yo is a round toy that goes up and down on a string.

Vehicle and Transportation Words

airplane

Airplanes fly in the sky.

ambulance

An ambulance takes sick people to the hospital.

anchor

An anchor is a heavy metal device that holds a ship in place.

automobile

An automobile is a car.

bicycle

A bicycle has two wheels, a handle bar, and pedals.

blimp

A blimp is a balloon-like airship that floats in the sky.

boat

Boats float in the water.

bulldozer

A bulldozer is a large tractor that moves earth.

bus

A bus is a large vehicle that can take many passengers to places.

cab

Cab is another word for taxi.

camper

You can travel and sleep in a camper.

canoe

A canoe is a small boat.

car

You can travel in a car.

caravel

The caravel is a large sailing ship that was first made in Portugal in the late 1400's. Many world explorers used caravels.

cart

A cart is a wheeled vehicle that is pulled or pushed by an animal or a person.

Conestoga wagon

US pioneers used Conestoga wagons pulled by oxen or horses to move their belongings westward. They are also called covered wagons or prairie schooners.

covered wagon

US pioneers used covered wagons pulled by oxen or horses to move their belongings westward. They are also called conestoga wagons or prairie schooners.

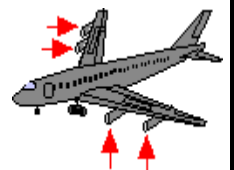

dump truck

A dump truck is a truck that can carry and then dump its load (like gravel or soil). A dump truck toy is a great in a sandbox.

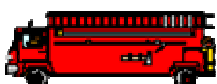

engine

The engine of a train pulls the railroad cars along the track.

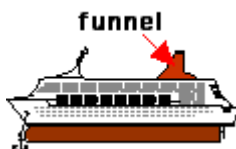

engine

The engines of an airplane propel it through the air. Engines also power other vehicles, like cars.

fire truck

Fire fighters on a fire truck help put out fires.

funnel

The funnel is the smokestack of a ship or a train.

fuselage

The fuselage is the main body of an airplane.

garbage truck
